The 6th January 1896.

No. 2.—*Notification.*—In modification of Notice No. 233, dated the 14th December 1895, notice is hereby given that it is the intention of Government to impose, with effect from 1st April 1896, a duty on all charas imported into the Punjab. The duty will be levied at the rate of Rs. 20 per maund from 1st April 1896 to 31st December 1896 and thereafter at the rate of Rs. 80 per maund.

2. The duty will become due as soon as the charas is brought across the frontier, but, as it may be inconvenient to the importers to pay the duty at that stage, arrangements will be made under which the charas can be taken without payment of duty, but subject to certain restrictions and rules, to golas or warehouses established at convenient centres, where it can remain as in a bonded-warehouse till it is desired to remove it, when the above-mentioned duty must be paid.

3. Rules will be published shortly prescribing the procedure to be followed by traders and others bringing consignments of charas across the frontier, regarding the storage of the drug in the warehouses to be established (the localities of which will be notified), the issue of charas from the warehouses, and the levy of the duty.

The name of an applicant who is not a Native of India as defined in Statute 33 Vic., Chapter 3, Section 6, or the subject of a Native Prince in alliance with Her Majesty, may, at the discretion of the Lieutenant-Governor, be entered in any of the above registers, but he shall not be *appointed* to the Punjab Provincial Civil Service except with the sanction of the Governor General in Council.

5. Register B will consist of persons not already in the service of Government or of persons in such service for less than ten years who may be specially recommended for entry; but any official on Register A may, with the permission of the Lieutenant-Governor, have his name transferred to Register B, and may, if he fails in the competition, and the Lieutenant-Governor so directs, be restored to Register A in such place as may be considered appropriate.

Officiating appointments may also be made in temporary vacancies due to (*a*) members of the Provincial Civil Service being appointed to officiate in appointments listed as open to the Punjab Provincial Civil Service under Punjab Government Notification No. 84, dated 21st January 1893, or as Extra Judicial Assistants, or in any ungraded posts (other than listed appointments) which are open to the Provincial Civil Service; (*b*) Extra Assistant Commissioners going on leave; and (*c*) Extra Assistant Commissioners being placed on special duty.

8. Every Officiating Extra Assistant Commissioner, who has not already passed or been specially exempted from passing the Departmental Examination prescribed for Assistant and Extra Assistant Commissioners, is required to pass that examination by the Higher Standard in all subjects within two years of the date of his being first appointed to officiate as an Extra Assistant Commissioner.

Qualifications necessary for nomination to Registers B and C.

18. The qualifications which are indispensable for nomination to Registers B and C for persons other than officials on Register A, whose names may be transferred to Register B under Rule 5, are the following :—

(*a*) The applicant must be a Native of India as defined in Statute 33 Vic., Chap. 3, Section 6, or a subject of a Native Prince in alliance with Her Majesty; he must be domiciled in the Punjab or a Native State under the political control of the Punjab Government, and must have recently resided for not less than three years in the Punjab or such Native State; or he may be a European British subject who has resided for not less than three years in the Punjab.

(*b*) He must not be under 20 or over 25 years of age last birthday, but if he has been in the service of Government for two years or more the maximum limit of age may be extended to 27 years last birthday.

(*c*) He must give satisfactory evidence that he possesses a minimum educational qualification equivalent to the Entrance Standard of the Punjab University.

(*d*) He must furnish the certificate of physical fitness prescribed by Articles 60 and 61 of the Civil Service Regulations.

(*e*) He must give satisfactory evidence of (i) good moral character; (ii) habits of personal activity; and (iii) gentlemanly bearing.

(*f*) If Urdu is not his vernacular, he must have passed the examination in that language by the Lower Standard, as laid down in the Army Regulations, India. If it is his vernacular, he must give satisfactory evidence that he can read Urdu fluently and write the Persian character with facility.

19. In addition to the qualifications mentioned in Rule 18 the applicant must possess at least one of the following further qualifications, that is to say, he must be either—

(*a*) a member of a family of tried loyalty and distinguished service; or

(*b*) a person of good social status and influence in the country; or

(*c*) a person of superior educational attainments, such as a graduate of an Indian University; or

(*d*) a person who has been in the service of Government for less than ten years and has shown promise of exceptional ability and fitness for high office.

EXPLANATIONS—*Clause* (*a*).—The mere fact that a man's father or other relation has served with credit as an official does not give a claim under this clause. Such claim arises only by reason of really distinguished services or some conspicuous act of loyalty performed by the father or grandfather or other very near relative.

Clause (*b*).—A claim under this clause does not arise from mere respectability of status, or influence such as that which a member of a Municipal Committee may have in his town, but from high social status such as that of a member of a family having an unofficial seat in Darbár or territorial influence or influence due to great wealth.

Clause (*c*).—A *B. A.* or equal degree at least is essential, and as a rule only those who stood high in the B. A. list will be selected if the possession of that degree is the only special qualification of the candidate under this rule.

Nomination to Register B.

20. Recommendations may be submitted by the Judges of the Chief Court and the Financial Commissioners from time to time as may be convenient, and should be made in the Form B attached to these Rules.

Subject to such inquiries as may be deemed necessary with reference to Rule 19, the Lieutenant-Governor will be glad to receive recommendations in the Form B (omitting columns 9, 10 and 11) from the Senate of the Punjab University.

21. The number of names to be borne on the register will not for the present exceed fifty at any one time.

22. Every candidate whose name is admitted to the register will receive a certificate in the Form C attached to these Rules. The certificate will be forwarded through the authority by whom the candidate was recommended.

23. Recommendations on behalf of candidates not accepted may be again submitted in future years if not finally rejected by the Lieutenant-Governor, and if the candidate continues to be admissible under these Rules.

24. The Lieutenant-Governor may, for reasons which appear to him sufficient, direct the removal of any name from Register B.

Appointments offered for competition.

25. An estimate of the number of appointments expected to become available for award by competition will be published in the *Punjab Government Gazette* during the months of August and September in each year.

The number will not exceed one-fourth of the number of appointments estimated to be available during the year for candidates both on Registers A and B, after deducting any appointments which the Lieutenant-Governor may intend to make under the power reserved to him to nominate candidates from Register C.

As many of these appointments as are actually available will, as vacancies occur, be conferred upon successful candidates.

If the actual number of vacancies in the course of the year following the competition falls short of the estimated number notified for competition, the successful candidates for the notified number of vacancies who have not been provided with appointments will be appointed, without further examination, during the succeeding year, before candidates who are successful at the competition held in the latter year; and the estimate of available vacancies for that year will be correspondingly reduced.

Appointments to vacancies will be made from among successful candidates in the order of merit in which they pass.

26. The name of every candidate who fails to gain an appointment at—

(*a*) three competitive examinations; or

(*b*) the first examination held after he attains the age of 25 years, or of 27 years if he has been in the service of Government for two years or more;

shall be removed from the register.

NOTE.—Clause (*b*) of this Rule does not apply to officials whose names have been transferred from Register A to Register B under Rule 5.

27. If a sufficient number of candidates to fill the vacancies notified in any year do not appear at or pass the examination, the appointments remaining unfilled will be held available for deserving officials on Register A, or for direct appointments from Register C.

28. A successful candidate, who has not served in a settlement or as a Tahsíldár, will after appointment be required to serve for twelve months in a settlement, and will ordinarily be allowed during that period a salary of Rs. 100 per mensem.

29. A successful candidate will be first appointed to an officiating vacancy as a probationer, and previous to his confirmation in a permanent vacancy a report will be called for regarding his fitness from the Commissioner and Deputy Commissioner under whose control he has served. He must also pass the Departmental Examination as prescribed in Rule 8.

The Competitive Examination.

30. A competitive examination will be held annually at Lahore, about the middle of October, commencing on such date as may from time to time be notified in the Gazette.

31. Any candidate admitted to Register B may, subject to the provisions of Rule 26, present himself at any competitive examination held under these Rules; provided that he has on or before the 1st October signified in writing to the Commissioner of the Division in which he resides his intention to do so.

32. A fee of Rs. 30 shall be paid by every candidate before admission to examination. A like fee shall be paid on each occasion on which a candidate is admitted to examination. The fee may be paid into any Government Treasury.

33. Every candidate shall produce his certificate of admission to Register B, and the Treasury Receipt for the fee, on the first day of the examination, and before the first paper is given out. The officer superintending the examination will retain the Treasury Receipt for the admission fee, but will return the certificate after noting on it the examination to which admission has been made.

34. The examination papers shall be set, marks awarded, and the results announced by the following Committee of Examiners:—

An officer selected from the Educational Department;

The Registrar, Chief Court;

One of the Secretaries to the Financial Commissioners; and

Such other officers as may be nominated Examiners by the President, who will be selected by the Local Government.

An officer will be appointed (on special duty) Secretary to the Committee of Examination. An Extra Assistant Commissioner, possessing a competent knowledge of English,

will be deputed to assist the Secretary of the Committee. The Secretary of the Committee and Extra Assistant Commissioner so deputed shall conduct the examination and all correspondence connected therewith, and shall act generally under the orders of the President of the Committee.

35. The Lieutenant-Governor will from time to time declare what subjects shall be fixed and what shall be optional. For the present there shall be three fixed and three optional subjects. Every candidate must take up all the fixed subjects, and may take up not more than two of the optional subjects.

The fixed subjects shall for the present be (1) Composition, (2) Indian Law and Revenue, and (3) Mathematics. The optional subjects shall be—

(1) Elementary Principles of British Government, (2) History, and (3) a Classical Language.

The details of fixed and optional subjects are given in Table D, and may from time to time be varied by order of the Lieutenant-Governor.

36. A candidate who fails to obtain one-half of the maximum number of marks in each of the three fixed subjects shall be deemed to have failed.

Unless one-half of the maximum number of marks is obtained in any optional subject taken up by a candidate, his marks for that subject shall not be counted in the examination.

37. The candidates who qualify shall be arranged in order of merit, according to the aggregate number of marks obtained by them, respectively, in all subjects taken up under Rule 35 in which they have qualified.

38. The subjects of competitive examination are the same for all candidates, and the questions may be answered either in English or Vernacular.

RULES.

1. (*1*) This rule, rules 2 to 9 (both inclusive) and rule 17 apply in the first instance to all waste lands which are the property of the Government in the districts mentioned in the Schedule, except—

But the said rules may be extended to lands of classes (*c*) and (*d*) by special order of the Local Government published in the official Gazette.

(*2*) Rules 10 to 16 (both inclusive) apply in the first instance to the Mooltan, Montgomery, and Jhang Districts only, but may be extended to any other district or local area by special order of the Local Government published in the official Gazette.

2. In these rules—

(*c*) in all cases a clause providing that, if the leased area or any part thereof is at any time required by the Government for public purposes, the lease shall be terminable on payment to the farmer of reasonable compensation to be assessed by the Collector.

6. (*1*) The owners of cattle grazing on any lands to which these rules apply shall pay to the Collector or Forest Officer, or to the farmer, as the case may be, fees according to a scale fixed from time to time by the Financial Commissioner for each district : Provided that no fee shall be charged for any sheep or goat less than six months old, or for any other animal less than one year old.

8. Every license-holder and every farmer shall be bound by the conditions stated in the license or lease, as the case may be, granted to him, and every person acting under rule 3, clause (ii), shall be bound by the conditions of the lease granted to the farmer.

9. (*1*) In case of any breach of the provisions of rule 8, the Collector may, at his discretion, cancel the license or lease, and thereupon the license-holder or farmer and every person acting under the farmer under rule 3, clause (ii), shall forfeit all claims to any produce or wood which at the time of the cancellation of the license or lease has not been removed from the land to which the license or lease applies.

(*2*) On the cancellation of a license or lease under sub-section (1), the license-holder or farmer shall not be liable for any fees outstanding on the produce or wood

so forfeited; but he shall have no claim to refund of dues already paid, and he shall not be thereby discharged from his liability for the payment of other dues in arrears or of instalments overdue under the terms of his license or lease at the date of the forfeiture.

10. (*1*) The Collector may, with the previous sanction of the Financial Commissioner, make an agreement on behalf of Government with the whole community of cattle-owners residing in any estate to pay such an annual assessment, by way of commutation for grazing dues, as may be agreed upon between the Collector and such community.

(*2*) Such assessment shall not, without the sanction of the Local Government, be made for a period exceeding five years; and when such an assessment has been concluded and recorded in such manner as the Financial Commissioner shall direct, no person comprised in such community of cattle-owners shall be liable to separate assessment in respect of any cattle belonging to him and grazing during the period mentioned in such agreement on lands to which these rules apply within the limits of the tract regarding which the agreement is made.

(*3*) Similar agreements may, under the orders of the Financial Commissioner, be entered into between the Collector on behalf of the Government and associations of cattle-owners, in respect of cattle owned jointly or severally by the members of such associations.

(*4*) For the purposes of this rule, the consent of persons owning two-thirds of the cattle belonging to a community or association as aforesaid shall be deemed to be the consent of all the cattle owners of such community or association.

11. If the cattle-owners of any community or association, which has accepted an assessment made under rule 10, prove to the satisfaction of the Collector that the owner of any cattle, in respect of which the assessment was made, has with his cattle left that community or association, and resides permanently with his cattle in another community or with another association in the same district which has accepted a similar assessment, the Collector may reduce the assessment payable by the former community or association and enhance the assessment payable by the latter community or association proportionately to the number and description of cattle removed from the one and added to the other.

12. The Collector may require the headman of any community or association of cattle-owners with which an agreement is in force under rule 10 to furnish him with a nominal roll of the cattle-owners belonging to such community or association showing the number and description of the cattle owned by each.

13. Disputes arising among the cattle-owners of any community or association which has accepted an assessment made under rule 10 regarding the incidence as among themselves of the assessment shall be decided by the Collector, whose order shall be final.

14. (*1*) All sums due under an assessment made under rule 10 shall be payable at such times and places and to such persons as the Financial Commissioner shall direct.

(*2*) The amount assessed under rule 10 shall be collected by lambardárs of estates or headmen of associations of cattle-owners, or by such other persons as the Collector may appoint, and such lambardárs, headmen, or other persons shall levy grazing dues from the cattle-owners in accordance with rates, which shall be fixed by the Collector so as not to exceed in the aggregate the total assessment and to apportion the incidence thereof among the cattle-owners as nearly as may be in proportion to the number and kind of cattle owned by each.

(*3*) If the amount of the grazing dues leviable under this rule from a cattle-owner belonging to any community or association which has accepted an assessment under rule 10 is not paid by such cattle-owner or by some other person on his account when duly demanded, the Collector may entirely rescined the agreement made under rule 10 in respect of such community or association.

15. The persons authorised under rule 14 to collect the assessment shall be entitled to a drawback not exceeding 5 per cent. on all sums paid by them into the Government Treasury on account of such assessment.

16. Three per cent. of the net collections, after deducting sums payable under rule 15, shall be credited to the District Patwári Fund, and shall be expended, under the orders of the Financial Commissioner, in remunerating the establishment maintained, and in paying the contingent charges incurred, in connection with the assessment and collection of grazing dues.

17. Any person acting in contravention of any of these rules shall be liable, on a first conviction, to simple imprisonment for a term which may extend to one month, or to fine not exceeding Rs. 100, or to both; and, on a subsequent conviction under this rule within three years of the first, to imprisonment for a term which may extend to six months, or to fine not exceeding Rs. 300, or to both.

The 5th February 1896.

No. 55.—*Notification.*—The following rules for the regulation of vaccine operations in the Municipality of Delhi, made under Section 19 of Act XIII of 1880 by the Municipal Committee of Delhi at a special meeting, have been confirmed by the Lieutenant-Governor, and are published for general information. They will come into force six weeks from the date of the publication of this notification :—

RULES.

Circles for the performance of vaccination.

1. For the performance of vaccination in accordance with the provisions of Act XIII of 1880, the Local Area included within the limits of the Municipality of Delhi shall be divided into three circles, *viz.*—

The first circle, which will comprise Wards 1, 2, 3, 4, 5, 12 and 15;

The second circle, which will comprise Wards 6, 7 and 13; and

The third circle which will comprise Wards 8, 9, 10, 11 and 14.

Appointment of vaccine stations.

2. The Municipal Committee shall from time to time appoint a place or places in each vaccination circle as a public vaccine station or stations, and shall cause to be affixed on the outside of every such place in a conspicuous position a signboard, on which shall be printed in letters easily legible, and in the English and Urdu characters, the following inscription: "Delhi Municipal Vaccine Station."

Qualifications of public vaccinators.

3. No person shall be appointed a public vaccinator except with the approval of the Sanitary Commissioner.

Time of attendance of public vaccinators and their residence.

4. During the vaccination season public vaccinators shall be bound to attend at the vaccine stations to which they may be attached by the Civil Surgeon daily from 8 A. M. to 4 P. M. They shall ordinarily reside on the premises provided by the Municipal Committee as a vaccine station within their respective circles, and in no case outside the limits of those circles.

5. The distinguishing badge of a public vaccinator shall be a red cross on white ground and shall be worn on the breast.

Fees chargeable by private vaccinators and the authority to which they are subject in the performance of their duties.

6. Persons licensed by the Local Government to act as private vaccinators shall in no case demand a higher fee than one rupee for a single operation and shall perform their duties under the orders and subject to the general control of the Civil Surgeon.

Objections of parents or guardians to vaccinate children unable to attend vaccinating station.

7. Persons who are unable to bring their children to the public vaccinating station to be operated on should apply to the Ward Member, who, if satisfied that there is good reason why the child should not be taken to the public vaccinating station, will supply the parents or guardians with a certificate to the effect that the child cannot attend and the head vaccinator will then depute a vaccinator to go and perform the operation at the house where the child resides.

Grant and form of certificate of successful vaccination, unfitness for or of insusceptibility of vaccination.

8. Whenever it is ascertained that a child is unfit for vaccination, or is insusceptible of successful vaccination, a certificate in Form A attached to these rules shall be granted, in the former case to the parent or guardian of such child by the vaccinator and in the latter in the Form B by the head vaccinator by whom such child was examined. Lymph to be used.

Whether this lymph should be stored in tubes or points shall be left entirely to the discretion of the Civil Surgeon.

11. If the parent or guardian of a child produced for vaccination desires that human lymph may be used, the vaccinator shall comply and the lymph shall be taken from a child, subject to its parents' or guardians' consent, that has two perfect vesicles left untouched on the arm to run their regular course. Not more than two children shall be vaccinated from each full sized vesicle open for the purpose of extraction of lymph, and not more than 60 children from a single buffalo calf or 6 children from a single child.

Supply of a sufficient quantity of such lymph.

12. If the result of the first vaccination is a failure the child should be re-vaccinated. If this second operation also is not successful it is needless to repeat it again. Although the Vaccination Act does not render liable to punishment the omission to get children under the age of six months vaccinated, yet it is very desirable that children be vaccinated at an earlier age. As a rule all healthy unprotected children over one month old presented for vaccination should be vaccinated by the public vaccinators.

RESOLUTION.

IN the letter from the Military Department, dated the 22nd April 1895, it was decided that for the future Military officers permanently in civil employ should not be eligible under military rules for rewards for passing in oriental languages. The Governor-

General in Council did not, however, consider it desirable that such officers should be altogether debarred from earning rewards for passing in such languages, and it was accordingly proposed to make the rules for the encouragement of the study of oriental languages among junior members of the Indian Civil Service published with Home Department Notification No. 1, dated the 2nd January 1880, applicable also to Military officers permanently in civil employ. Local Governments and Administrations were accordingly consulted on this proposal and have unanimously expressed themselves in favour of it.

2. The Chief Commissioner of Assam has expressed a doubt whether Rule VI of the Rules published with the Notification of the 2nd January 1880, which limits the period within which an officer is eligible for a reward for passing the Higher Standard, High Proficiency and Honour Examinations to 5, 10 and 15 years, respectively, counted from the date of his first arrival in India, can fairly be applied, in all cases, to Military officers. He has urged that, although the rule is suitable for the case of Indian Civilians, among whom transfers from one province to another are comparatively rare, Military officers, who frequently do not take up civil work until they have been some years in military employ and may be posted to a province in which they have not previously been stationed, will be placed at a considerable disadvantage if the rule is strictly applied in their case. He accordingly suggests that Military officers in permanent civil employ should be allowed, in special cases, by Local Governments or by the Government of India, to count the time within which they may appear for examination from the date of taking over their civil duties in the province to which they are posted on entering civil employ. The Chief Commissioner of Coorg has also proposed that, so far as vernacular languages are concerned, officers of the Political Department, whether civil or military, should be allowed to appear at examinations for rewards under the rules obtaining in the adjoining Presidency or Province, but only in such vernaculars as are spoken in their Agencies. Orders on the latter proposal will be separately issued by the Foreign Department.

3. The Governor-General in Council had decided to adopt the suggestion made by the Chief Commissioner of Assam. In future, therefore, the Rules of the 2nd January 1880 will apply to Military officers in permanent civil employ serving in the Provinces marginally noted, subject to the modification that the limits of time, specified in Rule VI of those Rules, within which an officer can earn a reward for passing the Higher Standard, High Proficiency and Honour Examinations, respectively, may, for special reasons, be extended by the Government of India on the recommendation of a Local Government or Administration.

4. His Excellency in Council will be glad if the Governments of Madras and Bombay will cause similar orders to be issued in respect of Military officers in permanent civil employ serving in the Madras and Bombay Presidencies, respectively, extending to them the rules in force in those Presidencies for the encouragement of the study of oriental languages among junior members of the Indian Civil Service. It will not be necessary for the Governments of Madras and Bombay to obtain the sanction of the Government of India to the extension of the period within which an officer can gain a reward by passing any of the examinations, but, as it will rarely, if ever, happen that an officer in civil employ in the Madras or Bombay Presidency will not have served with troops in the particular Presidency in which he is in civil employ, it is not probable that there will often be any ground for making such a concession.

ORDER.—Ordered that a copy of this Resolution be forwarded to Local Governments and Administrations; that a copy be forwarded to the Department of Finance and Commerce and to the Military Department for information; that a copy, with a copy of the letter from the Chief Commissioner of Coorg, dated the 30th August 1895, be forwarded to the Foreign Department for information and the issue of further orders; that a copy be forwarded to the Secretary to the Board of Examiners for information; and that the Resolution be published in the *Gazette of India* for general information.

26. No candidate, without the special permission of the officer in charge, is to leave his seat or the examination-room until the end of the examination. No candidate is to speak without permission: if it be necessary for the candidate to communicate with the Superintendent he is to stand up in his place, and the supervising officer will then see to his wants.

REVISED RULES REGARDING THE APPOINTMENT, DUTIES AND REMUNERATION OF EXAMINERS.

I.—APPOINTMENT OF EXAMINERS.

THE Examiners in all subjects, except in Law, shall be annually appointed by the Syndicate (subject to the subsequent confirmation of the Senate) not later than the month of May preceding the examination. Examiners in Oriental, Classical and Vernacular Languages selected for all examinations in the Faculty of Arts shall be persons who have a good knowledge of English.

2. Examiners of all oral and practical examinations shall be appointed by the Syndicate one month before the date of the examination.

3. In cases of emergency, owing to the refusal or inability of an Examiner to act, or other cause, when there is no time to bring the appointment of another Examiner before the Syndicate, the Vice-Chancellor, moved by the Registrar, shall be empowered to appoint such Examiner.

4. As a rule the Examiners for the Degree Examinations shall not be the same as those for the Intermediate Examination; provided that where the number of candidates for the Degree Examinations is small, one or both of the Examiners for these examinations may be employed for the Intermediate Examination.

5. When the number of candidates for the B. O. L. and M. O. L. Examinations is small, it is unnecessary to provide a second paper as specified below in paragraph 1 of the Duties of Examiners. The English papers shall be translated and centographed, if necessary, on the spot; the University providing a Translator, who shall be present two hours previous to the examination and be subjected to proper supervision.

2.—DUTIES OF EXAMINERS.

1. In all subjects, except Languages, the Examiner shall be required to set two papers of equal standard, one for the examination of the Oriental Faculty and the other for the Examination of the Arts Faculty.* Except in cases where the Examiner who sets the paper is prepared to translate the paper for the examination in the Oriental Faculty, and to examine each Vernacular answer himself, each paper set for the examination of the Oriental Faculty shall be handed over to a separate Examiner, who shall translate the paper and examine the answers.

2. (*a*). Examiners shall be required to distribute their questions with some uniformity over the whole range of the subjects in which they examine.

(*b*). In all examinations in Mathematics about two-thirds of the marks shall be assigned to book-work, or questions involving the direct application of ordinary rules.

(*c*). With regard to examinations in those subjects for which alternative text-books are recommended, Examiners are required not to base their questions exclusively on any one of such text-books.

(*d*). In the case of paper (*a*)—containing explanations of passages in prose and poetry and questions in grammar—for the examination in English by the Intermediate and B. A. standard, about two-thirds of the marks shall be assigned to questions based on the text-books and one-third to those of a more general character.

(*e*). In the case of paper (*a*) for the examinations in the Oriental Languages by the Entrance, Intermediate and B. A standard, about two-thirds of the marks shall be assigned to questions containing passages for translation from the text-books (with explanation and grammar) and one-third for passages of a similar standard from books not prescribed in the Course.

(*f*). As a rule alternative questions are to be avoided. If given they shall always be of equivalent value and standard of difficulty.†

3. (*a*). The Examiner shall strictly conform to the rules laid down in the regulations for the examination with which he is concerned, respecting the language to be used as the medium of examination in setting and answering the papers.

(*b*). In the Intermediate, Entrance and Middle School Examinations, in the case of passages set for translation from the different Vernaculars into English, the Examiner is required to take care that the passages set in the Vernaculars shall be of an equal standard of difficulty. In case he is unable to set passages in any one of the five languages specified in the regulations, he shall inform the Registrar, who shall report his inability to the Syndicate, and special arrangements shall then be made to have the papers for translation from and into such Vernaculars set, looked over, and marked by competent Examiners.

(*c*). The Examiner in Natural Science is required to set a paper for the oral and practical test in that subject, and in cases where there are two Examiners, one of them shall be selected by the Syndicate for this purpose.

(*d*). The Examiner in English is required to set a passage for the Oral Examination in English, and in cases where there are two Examiners, one of them shall be selected by the Syndicate for this purpose.

(*e*). The Examiners in Classical Languages and Persian for the Arts Faculty must themselves translate the papers set by them for the Arts Faculty into Vernacular for the candidates on the Oriental side.

4. No Examiner shall give any fractional marks for any paper in the results sent to the Registrar.

5. Examiners shall assign marks for each question, which shall be indicated in the right hand margin of the paper.

6. Any paper which does not strictly conform to the rules herein laid down may be returned to the Examiners for correction by the Registrar.

The Examiner shall be paid for the papers re-examined at the usual rates.

Where there appears to be a want of uniformity, he shall at once return the papers to the Examiner whose papers need revision, along with at least five papers examined and marked by himself, and with such instructions or suggestions as he deems necessary.

The papers shall be sent in the first instance to the Head Examiner in packets of 300.

4. In no case under paragraph 3 shall the Head Examiner himself increase or diminish the marks assigned to any paper by an Examiner.

In case of a difference arising between a Head Examiner and one of the subordinate Examiners the maatter shall be referred for decision to the Board of Studies.

2. The following subjects were considered by the Conference :—

I.—Revision of the grant-in-aid rules for Public Schools—

(1) So as to make the award for schools of more than five years standing at intervals of three or five years instead of annually, the grant during the period to be at the rate per unit of average attendance fixed at the time of the award, and to be continued on the ground of continued efficiency as tested by a general inspection of the school;

(2) So as to alter the rates for the different kinds of grants according to the figures of the past five years;

(3) So as to make a fraction of the total earnings depend on Organization and Discipline.

II.—Revision of the rates of the different kinds of grants for Indigenous Schools with reference to past figures. The omission of the second clause of Article 126 of the Punjab Education Code, by which passing in the three elementary subjects at one time counts as passing in four subjects in calculating the grants earned.

III.—Revision of the percentage of scholars in Girls' Schools eligible for Scholarships under Articles 364 and 365.

IV.—In view of the growing unpopularity of the Zamíndári Schools, is it desirable to modify the Scheme of Studies of the ordinary Primary Schools, so as, through these, to meet, in some degree, the object of the Zamíndári School Scheme?

V.—Should passing in some optional subject or subjects be made compulsory in both the Lower and Upper Primary Examinations?

VI.—A proposal to reduce the number of optional subjects that may be taken up for the Upper Primary Examination under Article 207.

VII.—Should Article 249 be modified so as to exclude students from holding a scholarship paid from Public Funds in conjunction with any or all of the Endowed Scholarships mentioned in Articles 340 to 343?

VIII.—The propriety of requiring attainments up to the standard of the Intermediate Examination for admission to the Junior Anglo-Vernacular Class of the Central Training College, as well as to the Junior Anglo-Vernacular Certificate Examination. Also of excluding clause (*a*) from Article 374, and modifying clauses (*b*) and (*c*).

IX.—Should a fee be charged for the Leaving Certificate required under Article 530, when, except from necessity, scholars change their school otherwise than at the end of a departmental course of reading?

X.—The insertion in Article 531 of a clause to the effect that Leaving Certificates should be applied for within a certain time of a scholar's leaving a school.

XI.—Whether a form should be prescribed for the Good Conduct Register kept up under Article 539?

3. Regarding the first part of Question I, the Conference decided that the rules for determining grants-in-aid in Public Schools should remain as at present; and, as this conclusion was arrived at after much deliberation, and in opposition to a proposal to substitute 'sample' for 'individual' examination as well as to the suggestion set down for discussion, the Lieutenant-Governor accepts the decision.

Parts (2) and (3) of this Question were referred to a Sub-Committee, on the report of which (Appendix I) the Conference resolved—

(1) That the grant rates should be revised so as to secure that the Attendance Grants shall not exceed two-thirds of the grants for Instruction, and that the saving thus effected should be utilised in providing a grant for Organization and Discipline, but that, in the event of the latter grant being withheld, the reasons for so doing should be stated explicitly in the Log Book;

(2) That, in accordance with the above decision, the revised scale of Attendance Grants should be—

	Anglo-Vernacular. Rs. A. P.	*Vernacular.* Rs. A. P.
Infant Department ...	0 3 0	0 3 0
Lower Primary Department	0 10 0	0 10 0
Upper Primary Department	2 4 0	1 6 0
Middle Department ...	6 2 0	2 10 0
High Department ...	12 4 0	5 4 0

(3) That the following should be the scale of new grants for Organization and Discipline, on account of every scholar in average attendance during the year:—

	Anglo-Vernacular. Rs. A. P.	*Vernacular.* Rs. A. P.
Primary Department ...	0 7 0	0 5 0
Middle Department ...	0 14 0	0 6 0
High Department ...	1 12 0	0 12 0

Provided that the maximum rates be not allowed unless the Inspector is fully satisfied with the organization and discipline, and that the rates awarded be not less than half the maximum, unless the school is reported as distinctly unsatisfactory in these respects;

(4) That the rates of Attendance Grants for Girls' Schools should remain as at present, as it is unlikely that these schools will be able to earn grants for Organization and Discipline for some time to come.

The Lieutenant-Governor approves of these decisions, with the exception of the rates proposed for Organization and Discipline in the Primary Department. These rates are the sums of the reductions made in the Attendance Grants in the three sections of that Department; but it is clear that such sums applied as single rates to the whole Primary Department are not, as assumed by the Conference, the equivalent of the constituent parts of those applied each to

its respective section only. On the contrary, they are something very different, and would lead to an expenditure much in excess of what is required to compensate for the loss arising from the reduced rates for Attendance Grants. The correct averages work out to something below 3 annas in the case of Anglo-Vernacular Schools, and 2 annas in the case of Vernacular Schools; and these rates are approved instead of the 7 annas and 5 annas, respectively, proposed by the Conference. With reference to the fourth resolution, the Lieutenant-Governor would limit the continuance of the special terms recommended for Girls' Schools to three years.

4. Question II concerned the revision of the grant rates for Indigenous Schools in accordance with previous experience; and on this the Conference adopted the following proposals:—

(1) That, in consideration of the fact that the total grants earned in Indigenous and Elementary Schools examined for grants are slightly in excess of what is required, and that the Register of Attendance is not generally reliable, the maximum Attendance Grant laid down in Article 125 for these schools be reduced from 8 annas to 6 annas per scholar in average attendance during the year in Boys' Schools, and that for the words "the full rate will not be given" in the Note to this Article the words "not more than 3 annas per scholar will be given" be substituted;

(2) That the Staff Grants laid down in Article 131 for Indigenous Schools be reduced in the case of Boys' Schools to Rs. 4 and Rs. 2, and in Girls' Schools to Rs. 6, Rs. 4, and Rs. 2, instead of the existing rates;

(3) *That the following Note be added to Article 127:—*

"No Instruction Grant will be made on account of any scholar found to have been wrongly entered as an agriculturist or farm labourer."

These decisions are approved; and the necessary alterations will be made in the Code.

5. On Question III, regarding the number of Scholarships to be awarded in Girls' Schools, the Conference recorded the opinion that the percentages of scholars at present eligible for scholarships on passing the Lower and Upper Primary Examinations should not be reduced, and resolved rather—

That the rates of Upper Primary Scholarships should be reduced to Re. 1 per mensem for the first year and to Re. 1-8-0 for the second year, and that the ordinary rate of Middle School Scholarships should be Rs. 2, Inspecting Officers having the power to award Rs. 3 where there is a reasonable prospect of the scholars becoming Teachers or Medical Students. Also that in the case of Upper Primary Scholarships Rs. 2 may be awarded in the case of those likely to become Teachers.

The Lieutenant-Governor accepts the reductions in the rates proposed; and the provision regarding the higher rates recommended in special cases will be given effect to by the addition of the following Note to Articles 364 and 365:—

Inspecting Officers have the power to increase the rate to Rs. 2 per mensem (or Rs. 3), where there is a reasonable prospect, as in the case of widows, of the holders becoming Teachers or Medical Students.

Regarding the view expressed in favour of not reducing the number of scholarships, the Lieutenant-Governor fully understands the disinclination of the Conference to adopt any measure that might tend to reduce the present comparatively insignificant attendance in the higher classes; but the fact that over three-fourths of the pupils above the Lower Primary stage are scholarship-holders is an unwholesome circumstance; and His Honor considers that the number eligible for Upper Primary Scholarships may advantageously be reduced from 25 to 20 per cent. of the number in the Second and Third Primary classes.

6. In connection with the last Question, the Conference considered the matter of the stipends awarded to girls preparing for the Teachers' Certificate Examinations, and recorded the following recommendation :—

> That these stipends should be made tenable for two years instead of one as at present, and that the rates should be reduced from Rs. 6 per mensem to Rs. 3 in the case of Junior Stipends, and from Rs. 8 or Rs. 10 per mensem to Rs. 4 in the case of Senior Stipends.

This recommendation is approved; and Article 380 will be modified accordingly.

7. Regarding Question IV, the Conference were of opinion that it is not desirable to modify the ordinary Primary School scheme of instruction in the interests of the Zamíndári Schools, and that the question of the Zamíndári Schools should be left to the time when the subject of Agricultural Education is being considered; and no order is required in this connection.

8. Questions V and VI were referred to a Sub-Committee, on the report of which (Appendix II) the Conference adopted the following resolutions :—

(1) That the rules regarding the subjects for the Lower Primary Examination as *compulsory* and *optional* should remain as at present;

(2) That the number of compulsory subjects for the Upper Primary Examination should be *four* instead of *three* as at present, and the number of optional subjects *two* instead of *three*, and that the fourth compulsory subject should not be fixed;

(3) That, with reference to the remarks of the Sub-Committee regarding the courses of Arithmetic at present prescribed, to the effect that the amount is excessive in the Upper Primary Department and insufficient in the Middle, the Conference re-affirms the decisions arrived at on the subject in 1894, and ventures respectfully to resubmit the same for the favourable consideration of Government;

(4) That, in consequence of the additional compulsory subject proposed for the Upper Primary Examination, the amount of reading in Urdu in the Fourth and Fifth Primary classes should be considerably reduced, as at present the quantity prescribed is far too great;

(5) That, for Vernacular Boarding Schools for girls, *Household Duties* should be included, alongside of Needlework, in the list of optional subjects for the Upper Primary Examination.

The Lieutenant-Governor accepts these decisions as regards (1), (2), (4), and (5), but is still averse to any reduction of the amount prescribed in Arithmetic for the Primary classes, or to lowering the Primary Standards in that important subject. The changes involved in resolution (2) will be given effect to by altering the number of optional subjects that may be taken up in Article 207 from four to three, and adding—"and one at least must be taken." The proposal made in resolution (4) will be referred to the Text-Book Committee for consideration, and that in resolution (5) will be met by the addition of the following to Article 204 (*e*), of the Code, after Needlework :—

> *Household Duties* (in Vernacular Boarding Schools). Annas 10 per unit of average daily attendance, provided the work is taught, to the satisfaction of the Inspecting Officer, to all girls above the Lower Primary Department and not less than an hour a day is provided in the regular rotation of the school for this training.

9. Question VII had reference to the holding of scholarships paid from Public Funds in conjunction with certain Endowed Scholarships. It was explained that the Fuller Exhibition of Rs. 35 per mensem was always held in conjunction with a Government Scholarship of Rs. 25 or 20, that the Nábha-Jínd Scholarship of Rs. 16 per mensem was always held in conjunction with a Government Scholarship of Rs. 12 or 10, and that the Gubbins Scholarship of Rs. 19 might be held, and occasionally had been held, in conjunction with both a Government and a Nábha-Jínd Scholarship; and the Conference, after much consideration, recorded the following proposal :—

> That no Government Scholarship shall be awarded to a student who has obtained an Endowed Scholarship of the same or higher value, in virtue of the place gained in the class list of a Public Examination, except in cases where the donor has expressly stipulated his desire that the scholarship endowed by him should be held along with the Government Scholarship; but that, in the case of a student entitled to a Government Scholarship who has won an Endowed Scholarship for some specific subject, and not on the general results of the Examination, he be entitled to hold such scholarship, or scholarships, along with the Government Scholarship.

This proposal is accepted; and effect will be given to it by a *Note* to Article 249.

10. On Question VIII, proposing to raise the attainments required of candidates for the Junior Anglo-Vernacular Teachers' Certificate, the Conference resolved—

> That the condition of having passed the Intermediate or F. A. Examination, or having studied up to that standard in an Arts College, should be required for admission to the Junior Anglo-Vernacular Class of the Central Training College, and to the Junior Anglo-Vernacular Certificate Examination.

The Lieutenant-Governor approves of this resolution on the understanding that the change proposed is fully practicable; and Article 162 will be modified accordingly.

11. In consequence of the last decision, the Conference further resolved—

(1) That clause (*a*) of Article 374 should be omitted;

(2) That clauses (*b*) and (*c*) should be changed into—

(*b*) To those who have attended the B. A. Classes of an Arts College for two years after passing the Intermediate or First Arts Examination, or who, having passed the Intermediate or First Arts Examination, have also passed the Junior Anglo-Vernacular Certificate Examination in the First Division, Rs. 12 per mensem;

(*c*) To those who have passed the B. A. Examination, Rs. 16 per mensem.

(3) That, because of the greater demand for English-knowing Teachers, it is desirable to decrease the amount at present allotted for Senior Vernacular Stipends, and to correspondingly increase the amount available for Junior Anglo-Vernacular Stipends.

These proposals are approved; and the Lieutenant-Governor has directed that the allotment for Senior Vernacular Stipends should be reduced from Rs. 270 per mensem to Rs. 230, and that that for Junior Anglo-Vernacular Stipends should be raised from Rs. 200 per mensem to Rs. 240.

12. The decisions of the Conference regarding Questions IX, X, and XI were the following :—

(1) That a fee should not be charged for the Leaving Certificate required under Article 530;

(2) That applications for Leaving Certificates should be made within one month of the date of withdrawal, except in the case of candidates in the Middle School Examination, when the month should count from the date of the publication of the results;

(3) That the form given in Appendix III to the Proceedings of the Conference, in which the register for a whole year is shown on one open page, be recommended for the Good Conduct Register prescribed in Article 539.

These recommendations are accepted.

13. His Honor the Lieutenant-Governor is indebted to the Members of the Conference for the time and attention given to the subjects submitted for their consideration; and he desires to convey to them the thanks of the Government for their continued warm and helpful interest in the cause of public instruction.

ORDER.—Ordered, that the above Resolution be published in the *Punjab Government Gazette* in English and the Vernacular, and that copies be sent to the Members of the Conference, to Commissioners and Deputy Commissioners, to the Principals of Government, Board, and Aided Colleges, and to the Managers of Aided Secondary Schools for Natives.

READ again—

Resolution in this Department No. 2209 A., dated the 10th May 1895, prescribing Rules regarding the payment of compensation for land taken up for public purposes under the Land Acquisition Act, I of 1894.

RESOLUTION.—The Governor-General in Council is pleased to direct that for paragraph 7 of the Resolution read above the following shall be substituted :—

"7. In giving notice of the award under Section 12 (2) and tendering payment under Section 31 (1) to such of the persons interested as were not present personally or by their representatives when the award was made, the officer shall require them to appear personally or by representatives by a certain date, to receive payment of the compensation awarded to them, intimating also that no interest will be allowed to them if they fail to appear. If they do not appear, and do not apply for a reference to the Civil Court under Section 18, the officer shall, after any further endeavour to secure their attendance that may seem desirable, cause the amounts due to be paid into the Treasury as revenue deposits payable to the persons to whom they are respectively due, and vouched for in the accompanying Form (marked E). The officer shall also give notice to the payees of such deposits, specifying the Treasury in which the deposits have been made. When the payees ultimately claim payment of sums placed on deposit, the amounts will be paid to them in the same manner as ordinary revenue deposits. The officer should, as far as possible, arrange to make the payments due in or near the village to which the payees belong, in order that the number of undisbursed sums to be placed in deposit on account of non-attendance may be reduced to a minimum. Whenever payment is claimed through a representative, whether before or after deposit of the amount awarded, such representatives must show legal authority for receiving the compensation on behalf of his principal."

ORDER.—Ordered that this Resolution be communicated to all Local Governments and Administrations; to the Home, Revenue, and Agricultural and Public Works Departments; to the Comptroller and Auditor-General; and to all Accountants-General and Comptrollers.

Facilities for procuring vaccination of children at private houses.

7. Persons desirous of procuring the vaccination of their children at their own houses may apply for that purpose to the Civil Surgeon, or Secretary, or Member of the Municipal Committee, Mooltan, in whose ward they reside. The Civil Surgeon shall thereupon depute an authorized vaccinator to comply with the request.

Grant and form of certificate of successful vaccination, unfitness for or of insusceptibility of vaccination.

8. Whenever it is ascertained that a child is unfit for vaccination or is insusceptible of successful vaccination, a certificate in Form A attached to these Rules shall be granted in the former case to the parent or guardian of such child by the vaccinator, and in the latter in the Form B by the Civil Surgeon of Mooltan. In like manner, whenever it is ascertained that a child has been successfully vaccinated, a certificate shall be granted by the vaccinator to the parent or guardian of such child in the Form C attached to these Rules.

Nature of lymph to be used.

9. The lymph to be used shall be pure lymph obtained on the fifth day, taken from the udder or from the soft skin in the neighbourhood of the udder of a buffalo under the age of one year which is free from contagious disease and has perfect full-sized vesicles.

Supply of a sufficient quantity of such lymph.

10. If the parent or guardian of a child produced for vaccination desires that human lymph may be used, the vaccinator shall comply, and the lymph shall be taken from a child, subject to its parent's or guardian's consent, that has two perfect vesicles left untouched on the arm to run their regular course. Not more than two children shall be vaccinated from each full-sized vesicle open for the purpose of extraction of lymph, and not more than 60 children from a single buffalo calf, or six children from a single child.

Re-vaccination and the age of the child.

11. If the result of the first vaccination is a failure, the child should be re-vaccinated. If this second operation also is not successful it is needless to repeat it again.

12. Although the Vaccination Act does not render liable to punishment the omission to get children under the age of six months vaccinated, yet it is very desirable that children be vaccinated at an earlier age. As a rule, all healthy unprotected children over one month old presented for vaccination should be vaccinated by the public vaccinators.

Fee payable to public vaccinator for vaccinating a child outside his circle.

13. A fee of one rupee shall be payable to a public vaccinator who vaccinates a child at the request of the parent or guardian outside the limits of the Municipality.

GOVERNMENT OF INDIA,—FINANCE AND COMMERCE DEPARTMENT.

PENSIONS AND GRATUITIES.

RESOLUTION.

Simla, the 31st August 1896.

READ—

Resolution by the Government of India in the Finance Department, No. 109, dated 7th January 1889.

RESOLUTION.—The Government of India have had under consideration the question of the revision of the maxima rates of salaries laid down in Article 809 (*a*) (*i*) and (*a*) (*ii*), and in the proviso under Article 823 (*b*) of the Civil Service Regulations, on which contribution is levied in the case of officers in Foreign Service whose pensions are subject to the maximum of Rs. 5,000 a year. In view of the fact that officers are now eligible under certain conditions to a special additional pension of Rs. 1,000 a year and that, in the case of persons resident out of India in any country in which the standard of currency is gold, pensions are paid at a higher rate than the market rate of exchange and that the calculations on which the figures depend cannot now be made at a higher rate of interest than three per cent., the Government of India find that the present maxima rates of salaries are too low and that consequently the contribution levied on them does not adequately represent the liability which the State incurs in undertaking to bear the cost of leave allowances and pension of Government officers in Foreign Service.

2. The Governor-General in Council accordingly directs that the maxima rates of salaries prescribed in Articles 809 (*a*) (*i*) and (*ii*) and 823, Civil Service Regulations, shall be increased in the following manner :—

(*a*) Rs. 1,500 instead of Rs. 1,250 in Article 809 (*a*) (*i*), Civil Service Regulations

(*b*) „ 1,250 „ „ 1,000 „ „ „ „

(*c*) „ 1,000 „ „ 833⅓ „ „ (*ii*) „

(*d*) „ 1,500 „ „ 1,250 in the proviso in Article 823, Civil Service Regulations.

(*e*) Rs. 1,250 „ „ 1,000 „ „ „ „ „ „ „

The revised maxima rates of salaries now prescribed shall not apply to officers transferred to Foreign Service before the 1st September 1896 ; and their application does not in any way create a right on the part of the subscriber to any special rates of payment of leave allowances or pension.

ORDERED—That this Resolution be communicated to the Departments of the Government of India, to the several Local Governments and Administrations, to the Heads of Departments under the Finance Department, to the Comptroller and Auditor-General, and to all Accountants-General and Comptrollers for information.

Date. *Chaplain in charge.*

II.—This drawing, &c., if approved of by the Archdeacon, shall be returned by him to the Chaplain or officer in charge of the Cemetery, who will collect the estimated endowment fee and remit it to the Accountant-General.

Note.—The fee is on *no account* to be sent to the Accountant-General previous to the receipt of the Archdeacon's sanction.

III.—The endowment is intended to cover the cost of ordinary annual maintenance, re-lettering and repairs, and not the risk of accidents due to floods or other natural causes, and the sum should be estimated accordingly. In the case of a monument already erected, the Executive Engineer, in his estimate for repairs, shall provide for the monument being placed upon a suitable foundation if he is not satisfied that such already exists. In the event of accident, the friends should be communicated with, and the procedure laid down in the Government of India Rules (Rule XX, page 474, Appendix K,* Volume I, Public Works Department Code, 7th edition) followed. The repair of fragile or costly work liable to be broken cannot be undertaken by Government, and should be excluded in estimating the endowment required.

*Government of India, Home Department, Notification No. 103, dated 20th June 1885.

IV.—When it is proposed to erect a simple cross, head-stone or slab, consisting of one single stone over an adequate foundation, it is optional to the persons interested to pay the endowment fee for its maintenance, which is fixed at Rs. 12; but if no such fee be paid, the cross, head-stone or slab will be liable to removal, if it should need renewal, under Rule XX, above quoted. This optional endowment may be paid at any time after the erection of the stone.

V.—The capital amount required to produce the estimated average annual sum at 3½ per cent. (the Savings Bank rate of interest) shall be paid to the Chaplain, together with such amount as is required to cover the cost of remitting the principal sum (by money order) to the Accountant-General, provided that the minimum capital amount shall be Rs. 12, and that all investments above that amount shall be fixed at such multiple of Rs. 6 as will produce a sum about equivalent to, but not less than, the average annual sum. [*N.B.*—Every 6 rupees produces at 3½ per cent. an annual sum of 3 annas.]

VI.—The Archdeacon shall, if he approve the design and inscription of the monument, grant permission for its erection or endowment. The Executive Engineer of the district shall be informed in writing by the Chaplain (or other officer) in charge of the Cemetery when the monument is ready for erection, and be requested to see that it is erected in a workmanlike manner and upon a solid foundation, and to bring it when completed upon his list as for repair by the Public Works Department, from funds to be supplied as laid down in Rule 9. In the case of an application for the endowment of an old monument the Executive Engineer shall be informed when the endowment has been effected and requested to bring the monument on his list.

VII.—All monies deposited for repairs to monuments in any one station or for any one Cemetery, shall be treated as belonging to one single account. The interest accruing on such monies shall form a common fund to be used exclusively for the repair of those monuments for which deposits have been made. For each cemetery there shall be a book called the "Record of Endowments," which shall contain columns according to the following form, and Chaplains (or other officers) in charge should be very careful to keep a correct list of all endowments in this book, the names inscribed on the tombstone being entered :—

When received.	When sent to Accountant-General.	Number on Cemetery Plan.	Name on Monument.	Amount Rs.

In order that Government may know that the tombs are kept in proper repairs, an annual report should be forwarded for each cemetery to the Accountant-General, who will consolidate the returns so received and render a general return to Government. The returns should contain remarks both by the Chaplain and Executive Engineer as to the state of the tombs for which endowments have been made.

VIII.—When the Archdeacon has granted permission for the erection (or endowment) of the monument, the capital sum received under Rule 5 shall be remitted by money order to the Accountant-General, who will invest it in a general account to be kept with the Savings Bank. The Accountant-General will, at his discretion, from time to time invest the amount of the general account in Government Promissory Notes if it appears convenient to do so. The interest on the general account shall be drawn once a year by the Accountant-General in July and remitted to the Chaplains concerned (less one-fourth per cent. which is credited to Government as a set-off against charges incurred for establishment), who shall pay the same into the Post Office Savings Bank in the names of the Chaplain and Deputy Commissioner or Chief Civil or Military Officer. An acknowledgment of the receipt of the capital sum for investment will be forwarded by the Accountant-General, through the Archdeacon, to the officer in charge of the cemetery, who will withhold permission for the erection of the monument till the receipt of such acknowledgment.

IX.—Joint estimates shall be framed annually by the Executive Engineer and the Chaplain of the cost of repairs of tombs as required by the Government of India Regulations [page 505, clause (*b*), Appendix K,* PublicWorks Code, seventh edition], and the aggregate of the sum so estimated as required for endowed tombs shall be placed to the credit of the Executive Engineer, Public Works Department, at the Treasury by the Chaplain or other officer in whose name jointly with that of the Deputy Commissioner or Chief Civil or Military Officer, the monies are in deposit at the Post Office Savings Bank. The unexpended balance of this amount should be returned to the Chaplain or other officer in charge of the cemetery by the Public Works Department to be re-deposited in the Savings Bank.

*Government of India, Home Department, Notification No. 103, dated 20th June 1885.

X.—It should be understood that the Chaplain or other officer who is in charge of the cemetery, in accordance with rules for the care and use of Government Cemeteries, will be held responsible for seeing that such monuments are kept in proper repair so far as funds are available.

XI.—The foregoing rules shall apply, *mutatis mutandis*, to railings round graves, which shall not be constructed until the requisite sum has been paid to cover the cost of repairs.

XII.—The foregoing Rules are to be observed in the case of all monuments to be erected after the issue of this Notification.

XIII.—The only cases in which the endowment of a monument shall remain optional are those referred to in Rule 4 of this Notification, and the cases of monuments erected to their comrades by soldiers and non-commissioned officers. If, in these cases, no endowment is effected, the monument shall, if it need renewal, be liable to the action of Rule XX, Government of India, Home Department, Notification No. 103, dated June 20th, 1885.

XIV.—Monuments erected prior to the issue of this Notification may, if desired, be endowed under these Rules.

(3). Permits shall be held to have lapsed if the trees are not cut, lopped, barked or removed within the periods fixed in the permits.

13. No permit is necessary for doing any of the acts next hereinafter mentioned, but nothing in this rule shall confer upon any person any right not recorded in the record of rights as enjoyed by him.

The acts referred to are as follows:—

(1) The cutting and removal of stumps of any kind, and of fallen timber except deodár, walnut, box and ash.

(2) The cutting and removal of—

(*b*) any dry standing tree (not being deodár, walnut, box and ash) in 1st class demarcated forests which has been specially marked by the Forest Officer, provided that, unless and until a sufficient number of trees are so marked, such trees may be cut and removed under the permit of the Negi of the Kothi in which the forest is situated. The Assistant Commissioner shall determine when a sufficient number of trees has been marked, and the authority of the Negi to give permits shall then cease.

Nothing in clauses (1) and (2) shall be deemed to allow the cutting and removal without a permit of any timber or dry standing trees from any forest which has been burned.

(3) The cutting and removal of any inferior reserved tree which has been specially marked by the Forest Officer.

(4) The lopping for fodder, manure, charcoal or other purpose of any inferior reserved tree.

(*b*) The lopping for manure in 2nd class demarcated and in undermarcated forests of any superior reserved tree except deodár, walnut, box and ash.

This clause is subject to the same conditions as to the girth of the tree and the height to which it may be lopped as are imposed in clause (5).

(7) The cutting and removal of one branch of a yew suitable for the Bastar Deo (household god) on the construction of a new dwelling house.

(8) The cutting and removal for biers of two rai poles of not more than a háth in girth at breast height, or, when rai trees are not readily accessible, of two poles of the same dimensions of any kind of trees except deodár, walnut, box and ash;

but kail trees may be cut and removed from 1st class demarcated forests only when a right has been admitted in the Record of Rights, and alder may be cut and removed from any forest only when a right thereto has been recorded, or when alder trees have been specially marked for the purpose by the Forest Officer.

Notice of all such cuttings must be given to the rákha or other Forest official within ten days.

Notice of all such cuttings must be given to the rákha or other Forest official within ten days.

(10) The cutting and removal for making agricultural implements and domestic utensils of any tree of not more than one háth in girth at breast height of any kind except deodár, walnut, box, ash and kail.

Kail trees also may be cut and removed where a right thereto has been admitted in the record, but such trees cut for the sánj of the plough may not be more than one háth and for the shamái not more than two háths in girth at breast height.

Notice of all such cuttings must be given to the rákha or other Forest official within ten days.

14. Trees granted by the Assistant Commissioner or Forest Officer may not be cut or removed until marked by a Forest official,

provided that unless and until a sufficient number of trees have been marked in a forest by the Forest Officer, the Negi of the Kothi in which the forest named in the permit is situated may on presentation of the permit mark the trees of the kind and size and to the number entered in it.

The Assistant Commissioner shall determine when a sufficient number of trees have been marked, and the authority of the Negi to mark trees shall then cease.

15. Trees shall be marked in a forest in which the applicant for a permit has a right to trees,

provided that when the Deputy Commissioner has decided on the report of the Forest Officer that in the then state of that forest the cutting of trees there would tend to its destruction, the trees granted shall in that case be marked in another forest which shall be as conveniently situated for the purposes of the applicant as the demands of forest conservancy and the requirements of rightholders will admit.

16. No tree standing within 10 yards of any public road may be cut except with the permission of the Assistant Commissioner.

(2). Dry deodár trees standing within the space above defined may be cut and removed only for the repairs of the temple buildings.

19. Where trees have been given for building purposes, the building shall be constructed within the limits of the Kothi where the cultivated land on account of which the trees are given is situated.

20. The Deputy Commissioner is empowered to arrange with rightholders in any forest the quantity of timber per annum to be granted to them for building purposes, and the quantity thus fixed shall be distributed among the rightholders by the Negi, or in such other way as may have been agreed upon.

21. When the house of a rightholder has been destroyed by fire or broken down by snow or otherwise, or when, for other sufficient reason, timber is urgently required, the Assistant Commissioner or Forest Officer shall at once pass orders on the application for a permit without regard to any time that may be fixed for granting permits.

22. No forest produce acquired under these rules or by rightholders in the exercise of rights may be sold or bartered or applied to any but the purpose for which it was acquired,

provided that nothing in this rule shall prevent the sale of bamboos, fruits, flowers, medicinal roots and leaves, honey, grass, firewood, torches, charcoal, lime, slates and plastering earth.

23. Non-agricultural residents and travellers and traders passing through Kulu may, if the rightholders do not object, graze their own cattle, collect dry fallen wood (not being deodár, walnut, box or ash) and cut grass in the undemarcated forests of the Kothi in which they reside or through which they are passing, but these licenses may be exercised only for their own domestic requirements, and while *boná fide* travelling in Kulu, and in case of abuse may be withdrawn by Government.

24. No grass land may be burned without the permission of the Assistant Commissioner or Forest Officer.

25. In the undemarcated forests no land may be broken up or cleared for cultivation or for any other purpose without the permission of the Assistant Commissioner.

26. New quarries may not be opened without the permission of the Assistant Commissioner or Forest Officer.

27. The felling and removal of trees, timber and other forest produce for trade, and the granting of licenses to fell and remove trees, timber, or other forest produce for trade, and the payments to be made in respect thereof, shall be at the discretion of the Forest Officer, acting under the control of the Deputy Commissioner.

The Forest Officer shall not fell or remove trees, timber or other forest produce, nor grant licenses for their removal to an extent that will interfere with the due supply of the rightholders.

28. Nets, traps and snares may not be set in Wazíri Rúpi without the permission of the Rái of Rúpi and in the rest of the Kulu Sub-Division without a permit from the Assistant Commissioner.

29. If the exercise of the rights as admitted in any forest would endanger the existence of the forest, the Forest Officer, with the sanction of the Deputy Commissioner, may define by numbers or otherwise the aggregate extent to which the rights can safely be exercised over the forest, and the extent to which each rightholder is in accordance with paragraph 10 of the Record of Rights entitled to exercise his rights.

SCARCITY.

The 9th December 1896.

No. 99.—*Notification.*—The following is published for general information:—

No. 13, dated Lahore, 23rd November 1896.

From—M. W. FENTON, Esquire, Revenue Secretary to Government, Punjab,

To—The Secretary to the Government of India, Revenue and Agricultural Department.

IN the circular of the Government of India, No. 5—48, dated 2nd March 1892, the rule quoted in the margin, which is reproduced in Section 45 of the Punjab Famine Code, prescribes the submission to the Government of India of a general report on the conditions of tracts suffering from failure of crops.

III.—As soon as the information is available, a general report should be submitted, giving an account of the economic condition of the affected districts or groups of districts in ordinary times, and indicating the crops affected and the extent to which they have suffered; the contingencies on which the probable duration of distress depends; the position of the affected area as to local trade, food-supply and communications; and any other general information likely to be instructive.

Present report not confined to particular districts.

2. The Government of India have already been made aware from the weekly telegraphic reports that famine relief works are in progress in the Phália Tahsíl of the Gujrát District, that test relief works have

been opened in the Karnál District, and that relief works are about to be commenced in the Hissar District. In addition to these tracts the districts of Rohtak and Umballa (southern tahsíls) have just been reported to Government as areas in which scarcity is prevalent and famine is imminent; and the Commissioner of Delhi has directed the submission of similar reports under Section 43 of the Famine Code for the remaining plains districts of his Division. The Lieutenant-Governor does not, however, in the present report propose to deal only with the circumstances of the tracts so affected. The present scarcity or famine appears to have visited practically the whole of India, and though particular districts may, from their having obtained timely rain or in consequence of the large proportion of irrigated area which they contain, have enjoyed good harvests and produced a sufficiency of grain and fodder for their own requirements, yet such tracts in the present days of improved communications cannot remain isolated from the effects of the generally prevailing scarcity; and high prices with their attendant consequences make themselves felt even in localities so favoured. Sir Dennis Fitzpatrick's view of the situation thus created is explained in the following extract from a circular issued to District Officers a fortnight ago:—

The period during which sowings for the rabi are possible is now rapidly passing away without any sign of rain, and a point may very soon be reached at which a wide-spread failure of the rabi crop will be a certainty. The result of this would in all probability be that prices, high as they are now, would go up much higher with a sudden bound, and that though there might be ample stocks in the country to last for a long time to come, vast numbers of people would not be able to pay the price of their daily food, and would be thus thrown on our hands.

2. The Lieutenant-Governor desires to draw the attention of Commissioners and Deputy Commissioners to the possibility of this happening very suddenly and very soon, and to remind them that, owing to the failure of the crops extending over so many parts of India and to the great facilities of transport created of late years tending to equalize prices all over the country, this result may come about very suddenly and very soon not only in those tracts where the crops fail for want of rain, but also in tracts which may be regarded as from the agricultural point of view well protected. It is therefore most necessary that *everywhere* preparations for relief should be so complete that relief measures could be started at a moment's notice.

For the above reasons it is now proposed to discuss the situation for the Province as a whole.

Causes of the present situation.

3. It is apparent that the present distress is due to two causes, *viz.*—

(1) Failure of harvests within the Province itself; and

(2) Rise in prices caused partly by (1) and partly by the conditions existing in other parts of India.

It will be convenient to deal with these two causes separately.

Normal crop statistics for the Province.

4. The normal* area of matured crops in the Punjab is as follows:—

1	2	3	4
Harvest.	Irrigated.	Unirrigated.	Total.
	Acres.	Acres.	Acres.
Kharif	2,562,219 (25)	7,591,927 (75)	10,154,146 (43·5)
Rabi	4,515,983 (34)	8,684,423 (66)	13,200,408 (56·5)
Total	7,078,202 (30)	16,276,352 (70)	23,354,554 (100)

NOTE.—The figures in brackets in columns 2 and 3 represent percentage of irrigated and unirrigated to total area on which crops have been matured; those in column 4 indicate the relative proportions of kharif and rabi.

* Based on the returns of 10 harvests for kharif and 11 harvests for rabi.

It will be seen from the above table that the rabi is the most important crop both in point of the actual area sown and the greater predominance of the edible grains, that 30 per cent. of the crops grown are irrigated, and that the largest proportion of irrigation takes place in the rabi. In different parts of the Province, however, the proportions indicated by the percentages shown in the table vary considerably. Thus the proportion of crops irrigated to total crops in the six Divisions is as follows :—

Division.	Per-centage	Division.	Per-centage.
Delhi	11	Ráwalpindi	31
Jullundur	26	Pesháwar	35
Lahore	57	Deraját	41

The Delhi Division is thus much more dependent upon rainfall, and therefore a much more precarious tract than any other portion of the Province. In respect of the greater importance of the kharíf harvest the Delhi Division also differs from the rest of the Punjab. There are only seven districts in the Province in which the normal kharíf area exceeds that of the spring harvest. Three of these, Simla, Kángra and Hazára, are in the hills, and can generally count on a sufficiency of monsoon rain ; a fourth, Dera Gházi Khan, is largely dependent upon inundation canals. The remaining three, Hissar, Rohtak and Gurgaon, are in the Delhi Division, and the kharíf harvest in these three districts, which depends almost entirely upon the monsoon rains, is in area on the average about double the rabi. In the remaining districts of the Delhi Division the normal rabi area only just exceeds that of the kharíf harvest. The average area under wheat in the whole of the Delhi Division is less than the average area of this crop in the Dera Ismail Khan and Bannu Districts together, and amounts to only 9 per cent. of the total area under the crop. It will therefore be understood that this Division is more affected by bad kharíf harvests than by failure of the spring crops ; and, as of the past three harvests which have been much below the average two are kharíf harvests, the calamity is most felt in this part of the Province, and perhaps most of all in the Hissar District, in which the kharíf harvest in a normal year amounts to 70 per cent. of the total crops and pays five-sixths of the revenue of the district.

Abstract of information contained in district reports.

5. Reports as to the character of past harvests and as to present agricultural prospects were called for from all Deputy Commissioners last month. These have now been received, and an abstract of their contents in tabular form is annexed to this letter. The percentages shown in the abstract indicating the proportion of the area of crops in each harvest to the normal area do not of course make any allowance for poorness or excellence of outturn as distinguished from area matured. In the districts of Jhang and Gujránwála there has been a considerable extension of cultivation on the Chenab Canal, and the percentage figures for recent harvests are on that account largely swollen.

Character of rabi harvest of 1895.

6. Generally speaking the spring harvest of 1895 was a good one. In area it was 10 per cent. above the normal, and the outturn was estimated by the Director of Land Records and Agriculture as an average one.

Character of kharíf harvest of 1895.

7. The kharíf crop of 1895 was a bad one. In area it was 15·5 per cent. below the normal, and was rated by the Director of Land Records and Agriculture as a 12-anna crop. The Hissar District suffered most, the matured area being only

30 per cent. of the normal. Those districts in or near the hills which are generally in danger of suffering from an excess of rain did well. There was a great lack of fodder in most districts.

Character of rabi harvest of 1895.

8. The rabi crop of 1896 may be described as decidedly bad. In area it was 20·6 per cent. below the normal. Not only were sowings greatly contracted owing to the early cessation of the previous monsoon, but the winter rains in December and January failed largely. The contraction of the unirrigated area amounted to 37·7 per cent. as compared with the average of 11 years, but this was to some extent compensated for by an increase of 543,750 acres (or 12 per cent. above the normal) in the irrigated area. In fact the irrigated area, which on the average amounts to 34 per cent. of the whole, in this season amounted to 48 per cent. of the cropped area. The proportion of matured crops to normal area in the six Divisions was as follows :—

Division.	Percentage.	Division.	Percentage.
Delhi	61	Ráwalpindi	83
Jullundur	86	Peshàwar...	83
Lahore	87	Deraját	90

The Delhi Division, as in the previous season, suffered the most. In no tract except the Chenab Colony was the harvest a good one. In the Sharakpur Tahsíl of the Lahore District, a purely unirrigated tract, it was found necessary to start relief works which were continued until the autumn of the year. They have not been re-opened as the work on the Gugera Branch of the Chenab Canal in the adjoining district affords employment to residents of this tract.

Present kharíf harvest.

9. The area returns of the present kharíf harvest are not to hand yet, but are being compiled, and a detailed report on the character of the harvest will shortly be submitted. It, however, may be stated that except in a few localities the crop is a bad one. The estimates of the District Officers as to the character of the harvest are noted in column 5 of the annexed abstract, but can be regarded only as estimates of the roughest description. The Director of Land Records and Agriculture has examined these estimates and has recorded a note thereon which is enclosed, but which I am to say His Honor is inclined to think takes too sanguine a view of matters. There has, it should be stated, been a great increase in the area irrigated from Government canals which will to some extent counterbalance the falling-off in the area of rain crops.

Prospects of coming rabi harvest.

10. As regards the prospects of the coming rabi, the early failure of the monsoon rains and the almost total absence of rain since the end of August are undoubtedly very serious features in the situation, as implying very contracted sowings on rain lands. In this respect the prospects are as unfavourable for the spring crop as they were on the same date last year, but even yet there is a hope that if rain fall in November or in some parts of the Province early in December, which is however not likely, there will be a considerable area of unirrigated land sown, especially in the northern and western districts of the Province. Even if this does not happen, it is not to be assumed that the usual winter rains will fail. Should they come at the usual time and be sufficiently copious, a large area of crops that would otherwise fail may be expected to reach maturity, especially in the case of late baráni sowings and irrigated crops on overworked wells and on inundation canals, as well as of crops on *sailáb* lands. The irrigated area also may be expected to exceed even that of last year, as the tendency in this direction is progressive. In the Delhi Division, however, the ordinary time for sowings has already passed, and apart from this circumstance the rabi crop in the distressed tracts is of minor importance as compared with the kharíf, and its success would not so much improve the situation as its failure would aggravate it.

11. Adverting now to the other cause of the present distress—the rise in prices—this is undoubtedly as much due to failure of crops in other parts of India as to short harvests in the Punjab. The present unfavourable prospects of the coming rabi are without doubt a factor in the situation, as speculation and market prices are influenced as much, if not more, by future prospects as by past events. The speculation or gambling—for this it often amounts to—which is reported to be taking place on a large scale among grain dealers, is regarded by the Native Press and by the Native public generally as the main cause of the present famine prices. It is no doubt largely owing to this that the prices are raised and kept high. The cause of this state of things is the anticipation of an insufficiency of stocks and the absence at present of any favourable agricultural prospects. Nothing but the appearance of some favourable feature, such as an early and widespread fall of rain in tracts which would benefit thereby, is likely to bring about that turn of the market which would convert those who bought for a profit into sellers to secure that profit or to save a loss. When the highest point will be reached it is difficult to say, but if the speculation is as widespread as is reported it seems likely that when the corner is turned and prices begin to fall there will be a scramble to realize profits or avoid losses.

Rise of prices.

12. As to the extent to which the depletion of stocks of grain is responsible for the present high prices it is difficult to obtain any accurate information. In the reports which Deputy Commissioners have submitted, as noted in the enclosed abstract, attempts have been made to estimate the stock of grain in each district, but with the free flow of produce from surplus tracts into distressed areas no estimate of the stocks in existence at any moment in a single district is of much value. The Director of Land Records and Agriculture in an addendum to the note referred to above has calculated the outturn of past harvests, and, deducting therefrom the amount of grain estimated to have been consumed and exported, he arrives at the conclusion that, apart from the produce of the present kharíf and the coming rabi harvests, there is a sufficient stock of grain in the Province to carry us on to the 15th of April next. The kharíf now being garnered is estimated to provide for the consumption of a further three months, after which there would be the whole of the produce of rabi 1897. There are, however, so many speculative elements in such calculations that it would be unsafe to rely much on them.

State of grain stocks.

13. The extent to which recourse will be necessary to relief works cannot at present be very well gauged, and the estimates given in our returns of the number of persons we are likely to have on our hands in a season of distress in each tract are, His Honor thinks, purely speculative. For the reasons explained in paragraph 2 above, relief works may, owing to high prices, be found necessary in districts in which the character of the harvests alone would not point to the necessity of any such measures. In such districts, and indeed in any district, the chief class for which relief works may be expected to provide employment is that of agricultural labourers or *kamíns*. In 1888 a confidential inquiry was made in this as in other provinces into the allegation that a large proportion of the population habitually suffer from insufficiency of food. In the report submitted to the Government of India (Punjab Government letter No. 263 S., dated 23rd June 1888), which was based on inquiries made in the districts, Sir James Lyall, while repelling the above assertion as regards the population generally, was of opinion that in insecure tracts when crops fail badly or are scanty for two or more seasons the village artizans, field labourers and some of the poorer tenants show signs of insufficient diet. These together with the poorer classes in towns who suffer from high prices are the classes who will first be driven to the acceptance of famine wages on relief works. The experience up to date in Gujrát where relief works are in progress is that very few agriculturists apply for work. In Karnál upon the test works which have been started according to recent reports agriculturists

Relief works for what classes required.

have not yet applied for employment. No reports have yet been submitted from Hissar. Generally it may be anticipated that if the winter rains do not fail such relief works as may be started will be mainly required for workers of the *kamín* classes, though in some districts considerable numbers of the poorer agriculturists too will be driven to look for employment. If, however, the rabi harvest proves a failure, relief operations for agriculturists as well as for other classes may be necessary on a very large scale. In this connection, however, it must be borne in mind that in a season like the present those zamíndárs whose holdings are irrigated, especially from a perennial canal, must reap very large profits, and it is only reasonable to suppose that a portion of those profits would find its way in some shape or other into the hands of their poorer neighbours.

State of preparedness.

14. It is of course necessary, while not at present assuming that the next rabi harvest will be a failure, to make preparations for such a contingency. For the past year the Lieutenant-Governor has been constant in directing the attention of District Officers to the preparation and revision of relief programmes for the insecure tracts mentioned in the list on page 6 of the Punjab Famine Code. For most of these fairly adequate programmes exist, and where this is not so steps are being taken to add new works. The preparation of relief programmes for districts not mentioned in the above list has been directed by the Lieutenant-Governor in the circular referred to in paragraph 2 above. It is believed that under the guidance of Deputy Commissioners District Boards generally are alive to the situation, and will by carrying out ordinary works of a suitable description afford sufficient employment where more extensive relief measures are not required. The work on the Chenab Canal is of immense value in affording employment to the inhabitants of the distressed tract in the Lahore and Gujránwála Districts, and it even attracts labourers from the Phália Tahsíl of Gujrát. His Honor is about to address the Government of India with a view to the provision of additional funds to admit of this work being continued and extended as a relief work. In general, His Honor prefers that money should be spent on large works of this description which must be constructed some day or another than that it be frittered away on small works of much less importance and utility.

Immediate outlook as regards relief operations.

15. Pending the uncertainty as to the future of the next rabi, it will no doubt be necessary to continue the relief works in Gujrát. The numbers on the test works in Karnál are increasing week by week, and it will soon be necessary to adopt relief measures in that district under the Code rules. In Hissar the relief works about to be commenced will probably have to be kept open for several months, and the condition of Rohtak in this respect seems similar. As regards these districts and the Delhi Division generally it was found in the case of previous famines that provision had to be made not only for the inhabitants of the tract, but also for emigrants from the States of Rájpútána. The extent to which emigration will take place on the present occasion depends upon whether sufficient employment on relief works for their subjects will be provided by the States concerned; and it is most desirable in the Lieutenant-Governor's opinion that the necessity for providing such employment be urged upon the attention of the Darbárs. Already an influx of men from Bikaner is reported from the Karnál District, the immigrants being described as begging their way from village to village. The difficulty will to some extent be met by the Ghaggar Canal project which will immediately be started on the border of Hissar and Bikaner and so supply relief work in the tract where it is most urgently needed, and the assistance thus rendered will be supplemented to some extent if the Ludhiána-Dhuri-Tohána and the Ludhiána-Ferozepore Railways are taken up.

16. A separate report will, as required by the rules in the circular of the Government of India, No. 5—48 of 2nd March 1892, be submitted to the Government of India in regard to the financial position. The abstract tabular report which is among the present enclosures shows the amounts of fixed land revenue remaining

uncollected on 30th September 1896 on account of the rabi harvest of 1896 and the amount which it is anticipated will in addition have to remain uncollected on account of kharíf 1896 on 31st March next. The former amount is just under 6 lakhs, the latter is estimated at a little over 19 lakhs, but this estimate can pending the report of the Girdáwari be regarded a little better than a guess in most districts. In addition to this it is probable that collections on account of fluctuating and miscellaneous land revenue will be some two lakhs below the budget estimate for the year.

No. 2134, dated Lahore, 31st October / 2nd November 1896.

From—F. A. ROBERTSON, Esquire, Director of Land Records and Agriculture, Punjab,

To—The Revenue Secretary to Government, Punjab.

I HAVE the honor to enclose herewith a copy of a memo. on the present agricultural outlook which I have drawn up principally for the use of my successor. Mr. Fanshawe asked me to send you a copy of this memo. as soon as it was prepared, which I have accordingly done. I also enclose copies of two printed pamphlets, the one containing my reports on the last three harvests and the other containing the remarks of the Deputy Commissioner of each district on the last three harvests, with two tables which I think will be very useful, one giving the area irrigated and unirrigated for each tahsíl for the last three harvests and the other giving the total area irrigated and unirrigated of each district for each harvest for the last ten years, with the average area of the last ten years. I have also made a rough calculation of the production of and consumption from the last three harvests and the balance of food stocks which I calculate should still be available. The estimate is of course at least a rough approximation, but personally I believe it to be not far from the truth.

MEMO. FOR THE USE OF MY SUCCESSOR.

Scarcity in the Punjab.

I HAVE been through the special reports called for by the Revenue Secretary's No. 992 S., dated 1st October 1896, and have returned them all. I have had the notes on the three last harvests—rabi 1896, kharíf 1895, and rabi 1895—brought together and printed with two very useful tables, one showing the total area of crops irrigated and unirrigated in each tahsíl for each of those three harvests and the other giving the district totals, irrigated and unirrigated, for the last ten years for rabi and kharíf, and also the average of the last ten years. These will, I think, prove useful. They are attached to this note.

Delhi Division.

The tracts in the worst condition are undoubtedly the districts of the Delhi Division.

Hissar—Deputy Commissioner, Muhammad Afzal Khán.

For months past the Deputy Commissioner of *Hissar* has been sending in most gloomy accounts, and he now says that prospects are very gloomy; there is very little irrigation and no fodder. The irrigation on the average is only less than $\frac{1}{20}$ in the kharíf and $\frac{1}{9}$ of the rabi. The rabi area of 1896 was only $\frac{1}{2}$ of the average, and the kharíf of 1895 less than $\frac{1}{8}$. The rabi of 1895 was, however, 50 per cent. above the average, or $\frac{3}{2}$. Hissar is really in a bad way, and relief works will be required.

Rohtak—Deputy Commissioner, Captain Egerton.

The special report has not been received. The proportion of irrigation is on the average $\frac{1}{7}$ to $\frac{1}{8}$ in the kharíf and $\frac{1}{6}$ in the rabi. But the capacity for irrigation has much increased, and in rabi 1894, 110,000 acres were irrigated and only 64,000 not irrigated. The total rabi area of 1896 was far below average, rather over $\frac{1}{2}$; the kharíf of 1895 was $\frac{4}{5}$, and the rabi of 1895 much above average, about $\frac{3}{2}$.

28th October 1896.—Report just received. The unirrigated kharíf of 1896 will be only 6 annas. Fodder is scarce. Cattle in fair condition. Grain sufficient for four or five months. If no rain falls, some relief works may be necessary in Jhajjar in November and elsewhere in January.

Gurgaon—Deputy Commissioner, Colonel Rennick.

In Gurgaon the Deputy Commissioner's remarks are far from clear, at one one time suggesting a much better harvest than was expected, at another a much worse one. The average of irrigation in the rabi is $\frac{2}{7}$. In the kharíf there is little irrigation as it is seldom required. Average less than $\frac{1}{20}$. Area rabi 1896 about $\frac{2}{3}$ average, about $\frac{3}{7}$ of which was irrigated. Kharíf 1895 was about $\frac{6}{7}$ average, and rabi 1894 was above average, about $\frac{7}{8}$. Condition of the district is far from desperate, but there will be no unirrigated rabi if no rain falls before 15th November. Stocks are ample.

Delhi—Captain Davies.

Delhi is not in good case, but kharíf 1896 will be Re. 0-8-0 to Re. 0-10-0. There will be no unirrigated rabi unless rain falls by 15th November. The average irrigated area is about $\frac{1}{4}$ of the total, but the irrigated area of 1896 was very nearly half the total, 100,000 acres, the average being 60,000. The possibilities of irrigation have increased. Rabi 1896 in area was $\frac{3}{4}$ of average, kharíf 1895 average, and rabi 1895 above average—$\frac{6}{5}$. Fodder is very scarce. Stocks are sufficient for 3 or 4 months.

Karnál—Mr. Connolly.

The Deputy Commissioner reports very badly of Karnál. There have been no unirrigated rabi sowings, and will be none if no rain falls by 15th November 1896. The cattle graziers are removing their cattle; water is drying up in the tanks; zamíndárs are said to have no stocks; and banias stock for 3 months only. I do not think things are quite so bad as Deputy Commissioner does. In the last rabi 172,000 acres were irrigated; the average is only 98,000. Means of irrigation have increased. Rather more than $\frac{1}{4}$ has been irrigated as the average in rabi and $\frac{1}{7}$ in kharíf. The last rabi area 1896 was rather less than $\frac{2}{3}$, the kharíf 1895 about $\frac{7}{9}$, and the rabi of 1895 much above average—about $\frac{3}{2}$. In rabi 1896 the unirrigated area was very small indeed, about $\frac{1}{5}$ of the average. It is said that relief works will be required in November 1896.

Umballa—Captain Parsons.

The Deputy Commissioner of Umballa has submitted a very good note. He thinks the 1896 kharíf crop Re. 0-9-0 or Re. 0-10-0, but the Revenue Assistant puts it at only Re. 0-6-0 or Re. 0-7-0. I think the Deputy Commissioner quite as likely to be right. Fodder for four months is in hand, and zamíndárs have stocks for 3 or 4 months. Little or no rabi can be sown unless it rains before the 15th of November. The irrigated area is small, only on the average little more than $\frac{1}{20}$ in rabi and $\frac{1}{30}$ in kharíf. The district depends entirely on rain. Rabi area in 1896 was $\frac{3}{5}$ average, kharíf 1895 nearly average, and rabi 1895 above average, $\frac{11}{10}$. The district is in some difficulty.

Jullundur Division.

The Jullundur Division is not yet in any severe straits. The Commissioner remarks that the present situation is simply a scare on the assumption that the next rabi will fail.

Kángra—Mr. A. Anderson.

Kángra reports a 10-anna or 12-anna crop; about $\frac{1}{4}$ of the rabi and $\frac{3}{7}$ of the kharíf is irrigated. Area of rabi 1896 was nearly average, of kharíf 1895 above it, and of rabi 1895 much above it, $\frac{5}{3}$.

Hoshiárpur—Captain Inglis.

In Hoshiárpur there is about a 10 to 11 anna crop, and half the next rabi has been sown. Stocks are sufficient to next rabi. There is not much irrigation, but usually a good rainfall. Only 25 irrigated in rabi and $\frac{1}{17}$ in kharíf. Rabi 1896 about $\frac{3}{4}$, kharíf 1895 average, and rabi 1895 average in area.

Jullundur—Mr. Renouf.

In Jullundur little rabi has been sown on unirrigated lands, but $\frac{4}{9}$ of the rabi and about the same in the kharíf are irrigated. I believe Jullundur is not so badly off as Mr. Crosthwaite, Officiating Deputy Commissioner, thinks. Area of rabi 1896 $\frac{13}{15}$, kharíf 1895 nearly average, and rabi 1895 above average.

Ludhiána—Mr. Rose.

As to Ludhiána it may be noticed that the whole district is classed as "secure." The Deputy Commissioner takes a very gloomy view, more so than I believe the facts to justify. The kharíf of 1896 all over is put at 6 annas only. Stocks are ample. In the rabi $\frac{1}{4}$ is usually irrigated and in the kharíf $\frac{1}{8}$. The rabi area of 1896 was $\frac{4}{5}$, the kharíf 1895 average, and the rabi of 1895 above average.

Ferozepore—Captain Burlton.

In Ferozepore the Deputy Commissioner takes a gloomy view, but the Commissioner thinks it too gloomy; so do I. Kharíf 1896 is classed as annas 6 to annas 8. Fodder is said to be available for two months only; grain stocks till April. Relief works not required before

January 1897. There is a great deal of irrigation in Ferozepore. More than $\frac{1}{3}$ in rabi irrigated on the average and nearly half in 1896 and about $\frac{1}{4}$ in the kharíf. Area of rabi 1896 was about $\frac{19}{20}$, of kharíf 1895 $\frac{2}{3}$, and rabi 1895 about $\frac{6}{8}$, above average.

Lahore Division.

In the Lahore Division the Commissioner considers that the only tracts causing anxiety are Sharakpur and the high lands between the Sutlej and the Ravi. The high prices caused in great measure by grain gambling are, he considers, the main cause for anxiety.

Mooltan—Mr. T. J. Kennedy.

In Mooltan the crops are nearly all irrigated, $\frac{4}{5}$ of the rabi and nearly all the kharíf. There is no trouble in this district.

Jhang—Captain Douglas

In Jhang also there is no cause for anxiety. Rain is always scanty, and the new canal and railway give abundance of employment. Fodder is scarce. Here also most of the crops are irrigated—$\frac{3}{4}$ in rabi and $\frac{2}{3}$ in kharíf.

Montgomery—Diwán Narindra Náth.

In Montgomery the sailába area has failed owing to scarcity of water in the rivers, and fodder is very scarce. The people to a large extent are nomadic graziers, and will go elsewhere in search of fodder. The district is not to any extent dependent on rainfall, and the gloomy report is rather difficult to understand; but there are large herds of cattle which will suffer for want of fodder. More than $\frac{2}{3}$ of the rabi and $\frac{7}{8}$ of the kharíf is irrigated. I do not believe there is much cause for anxiety in Montgomery. Relief works not likely to be required.

Lahore—Mr. A. E. Hurry.

The Lahore District is suffering. The rabi 1896 was poor, and small relief works were opened in Sharakpur. The kharíf on baráni lands will be almost *nil*. Fodder is scarce and cattle much overworked in wells. Stocks with traders are large Small relief works will soon be required. There is, however, a very large area of irrigation: $\frac{2}{3}$ of the rabi and $\frac{4}{7}$ of the kharíf are irrigated. This is worth remembering. The unirrigated portion in the west only can be really in distress. The area of rabi 1896 was rather over $\frac{2}{3}$ ($\frac{13}{18}$), the kharíf of 1895 about $\frac{3}{4}$, and the rabi of 1895 above average.

Amritsar—Captain Dallas.

In Amritsar there is not yet anything like real distress. The kharíf of 1896 is nearly as good as that of 1895. There has been some portion even of baráni lands sown for the next rabi, and stocks are ample. About half of the crops in each harvest are irrigated.

Gurdáspur—Mr. Love.

In Gurdáspur the kharíf of 1896 is good on low-lying lands. Stocks are ample, and a brisk export is going on from Batála. It is said that relief works will be required in November. The special report says nothing about rabi sowings. About $\frac{1}{6}$ of the rabi and $\frac{1}{4}$ of the kharíf is irrigated, but much of the district usually suffers from too much water.

SUMMARY FOR LAHORE DIVISION.—The districts of Montgomery, Mooltan and Jhang are not very dependent on rain; Lahore and Amritsar have much irrigation, and Gurdáspur is submontane and generally does well in dry years. Except in the restricted area mentioned by the Commissioner, there is no real cause for anxiety in the Lahore Division.

Rawalpindi Division.

In parts of the Ráwalpindi Division there is more cause for apprehension. There is comparatively little irrigation, and there are tracts which have suffered somewhat severely.

Siálkot—Major Egerton.

In Siálkot there is a large amount of well irrigation which cannot always be depended on in bad years, as the cattle get worn out from scanty food and overwork. About half of the year's crop is irrigated. The rabi area of 1896 was not much below average; the kharíf 1895 was average, and the rabi of 1895 was also average. More than half of the crops are irrigated in the rabi and rather less than half in the kharíf. I have seen no special report from Siálkot.

Gujrát—Kázi Muhammad Aslam Khán

In Gujrát the proportion of irrigation, mostly wells, is smaller,—rather more than $\frac{1}{3}$ in rabi and $\frac{1}{4}$ in kharíf. I regret that no special report has been forwarded to me. I believe that there is trouble in parts of Phália, where small relief works are open. The rabi of 1896 was about 13 annas, more than $\frac{3}{4}$, the kharíf of 1895 was nearly average, and the rabi of 1895 above average. I am not very well informed as to the presentcondition of Gujrát.

Gujránwála—Mr. Drummond.

In Gujránwála there is a very large proportion of irrigation,—$\frac{3}{4}$ in rabi and $\frac{1}{3}$ in kharíf,—and the amount is increasing with the extension of the canal system. Fodder is scarce. Grain is sufficient to next rabi. The canal colony has a good crop, and the new canal and railway will give plenty of employment. No relief works will be required before February next. The kharíf of 1896 is about 8 annas. The area of rabi 1896 was not much below average, $\frac{38}{48}$, the kharíf 1895 was below average, about $\frac{11}{13}$, and rabi 1895 was above it, about $\frac{6}{5}$.

Shahpur—Mr. Bridges.

In Shahpur there has been a moderate kharíf of 1896, but it has not been a failure. Fodder is scarce, and little rabi has been sown except on well lands. The Deputy Commissioner considers the stock of grain to be insufficient, but this does not matter, as there is a railway through Khusháb and down to Bhera. The district is not well off, but there is no famine, and relief works are not expected to be necessary. There is a large irrigated area in this district,—over $\frac{1}{2}$ of the rabi crop and $\frac{1}{3}$ of the kharíf is irrigated. As to area, the rabi of 1896 was $\frac{4}{5}$, the kharíf 1895 was above average, $\frac{6}{5}$, and the rabi of 1895 was slightly above average.

Jhelum—Mr. Silcock.

Jhelum is much better off than might have been expected, especially in Chakwál and Talagang, where timely thunderstorms enabled the people to sow a good deal of rabi. Kharíf 1896 poor. Cattle gone off in search of fodder. If good winter rains fall no trouble need be anticipated. Jhelum Tahsíl is worst off. Stocks exist for six months at least, but are supposed to belong in part to traders in Amritsar and Delhi. There is little irrigation in this district,—only $\frac{1}{20}$ in rabi and less in kharíf, mostly from wells.

Ráwalpindi—Mr. J. Wilson.

Parts of Ráwalpindi are really in trouble, probably more so than any other part in the Division. Pindigheb, Fatahjang and half of Attock are hot dry tracts, entirely dependent on rain, which has failed. In these parts fodder is very scarce. The Mari-Attock Railway gives a lot of employment, but work for non-professional labourers is required. It is not, however, expected that any relief works, except this and possibly a road to Chauntra, may be required. The eastern half of the district is much better off than the western. There is very little irrigation, and that is mostly in the north from cuts, but $\frac{1}{20}$ only is irrigated. The area of rabi 1896 was less than $\frac{4}{5}$ of the average, the kharíf of 1895 was nearly average, and the rabi 1895 a good deal above average.

Peshawar Division.

In the Pesháwar Division there is nothing like famine. High prices obtain, but there is no other sign of scarcity.

Hazára—Mr. Bunbury.

In Hazára the kharíf 1896 is very fair, and good rain fell in September and there have been full rabi sowings. There is surplus fodder in parts which is being exported. Hazára need not be discussed further.

Pesháwar—Major Leigh.

In Pesháwar the baráni kharíf has been poor, but the crop was mainly irrigated Fodder is scarce, but gram is sufficient. There is much irrigation here: $\frac{4}{9}$ of the rabi and more than $\frac{2}{3}$ of the kharíf is irrigated. The rabi 1896 was $\frac{3}{4}$ average, kharíf 1895 average, and rabi 1895 above it. There is no real trouble here.

Kohát—Captain Rawlinson.

In Kohát an average area has been sown for rabi 1897, and beyond a scarcity of fodder there is nothing to note. About $\frac{1}{4}$ of the rabi and $\frac{1}{3}$ of the kharíf is irrigated.

Derajat Division.

There is little that is abnormal in the condition of the Deraját Division. The only difficulty appears to be in obtaining seed for sowing owing to high rates. Takávi is urgently asked for throughout the Division.*

Bannu—Mr. Younghusband.

In Bannu there was good rain in the end of September, and rabi sowings are complete. Cattle are in much better condition than six months ago. There is plenty of gram. Fodder of course is scarce, but there is a good deal of *bhúsa*. About $\frac{1}{4}$ of the crops are irrigated. The area of rabi 1896 was about $\frac{19}{20}$, kharíf 1895 about $\frac{17}{19}$, and rabi 1895 about average.

* Orders have been issued as regards granting takávi in such cases in the Deraját and elsewhere.

Dera Ismail Khan—Mr. Homan.

In Dera Ismail Khan the condition is much the same The special report is very colorless and gives little information. Between $\frac{1}{3}$ and $\frac{1}{4}$ is irrigated in rabi and $\frac{1}{6}$ in kharíf from river overflow and hill torrents. The area of rabi 1895 was about $\frac{5}{8}$, kharíf 1895 average, and rabi 1895 average.

Dera Gházi Khan—Captain C. P. Thompson.

In Dera Gházi Khan the state of affairs is better, indeed better than usual. There are stocks for 9 or 10 months, and no relief will be required. Nearly one-half of the crop is irrigated in rabi and a slightly smaller proportion in kharíf, but in all these Pesháwar and Deraját Districts the irrigated is far the most important part. Area of rabi 1896 $\frac{9}{10}$, kharíf 1895 about $\frac{9}{10}$, and rabi 1895 average.

Muzaffargarh—Captain Bradshaw.

In Muzaffargarh the condition of affairs is in no way unusual. No relief works will be required. More than $\frac{2}{3}$ of the rabi and practically the whole of the kharíf is irrigated, and the last three harvests have all been about average.

Summary.

Taking the Province as a whole, we have two patent facts to face,—very high prices and a scarcity of fodder. The high prices are produced by a number of causes. Scarcity in other parts of the country, gambling, and the possibility of a failure of the next rabi are the principal ones. The reports of the Deputy Commissioners and my own calculations and whatever information I have been able to collect show to my mind conclusively that stocks, particularly in the hands of traders, are still large, ample for the Provincial consumption from 6 to 10 months if not depleted by export elsewhere. Seed grain is dear and difficult to get in places, mainly because the owners are holding up for high prices. Takávi is urgently called for in several districts * Cattle are suffering from want of fodder and are being moved about to river sides, hills, &c., where more grazing can be got, but on the whole the account of the cattle is better than might have been expected, and it is remarkable that there is hardly any disease among them. A good deal more of the rabi crop for 1897 appears to have been sown than would have been supposed, and the situation really resolves itself into this, that if good rain falls in the winter, I mean at the ordinary time in December and January, there will be no famine, but only some scarcity, and should it fall by any extraordinary good luck by 15th November, there will be a fall in prices at once and very little trouble. Looking at special localities, we may say that if it were not for scarcity elsewhere and high prices there is nothing unusual in the condition of the Pesháwar and Deraját Divisions, which have much irrigation and mainly depend on their irrigated crops. The same may be said of the districts of Mooltan and Jhang Montgomery is said to be worse off, and one part of Lahore is no doubt in difficulties. There is nothing alarming at present in Shahpur, Jhelum or Siálkot, but the western portion of Ráwalpindi is in as bad a state as any in the Province. Gujránwála is fairly safe with a large area of irrigation; in Amritsar there is nothing like serious distress, and a good deal has been sown for rabi 1896. Gurdáspur is not in bad case, and stocks of grain are large. Hoshiárpur and Kángra are not suffering. Jullundur, Ferozepore and Ludhiána are all spoken of in somewhat gloomy terms by their Deputy Commissioners, all very junior officers, but the Commissioner does not take the same view.† The Delhi Division is really the only one which is seriously threatened. Hissar is suffering severely, and Karnál seems to be in a precarious state. Umballa wants watching, and neither Rohtak nor Gurgaon are in a very good condition.

Famine has certainly not reached us yet, and if the winter rains come in due course, even if we get no more till December or January, it will not come next spring, but there will be serious difficulty in places. If the winter rains fail, and there is no reason why they should, the situation will undoubtedly be a very grave one indeed. It may be as well to note here, however, that of the whole area of the Province $\frac{2}{7}$ is irrigated in the rabi and $\frac{1}{4}$ area in the kharíf. Over four millions of acres are produced on irrigated land each rabi. The rabi of 1896 for the Punjab was 13 annas, the kharíf of 1895 was above 13 annas, and the rabi of 1895 was above average, rather more than 17 annas. Taking the Province as a whole the rabi of 1896 was not a good one. The kharíf of 1895 was a bad one, and there was a great lack of fodder. It was estimated at a 12-anna crop. The rabi of 1895, though it varied a good deal from place to place, was on the whole a good one and above average.

* See above.

† His Honor is inclined to think that the Commissioner, with whom he has discussed the position within the last few days, takes a somewhat too sanguine view.

STOCKS AND CONSUMPTION.

As regards stocks in hand, to make any calculations of the actual produce of a large Province like the Punjab, and also of the actual consumption is obviously a very difficult matter and one into which large errors may very easily creep. The figures of the multiplicand are so large that a very trifling alteration in the calculation of individual consumptions must make an enormous difference in the Provincial total. Still it seems to be worth while to make some calculation of the total outturn of the last three harvests, the home consumption during that period, and the export, and to see what it leaves.

The first factor to consider in this calculation is the rate of yield to be assumed. I have made two calculations on different lines, and put up both for what they are worth.

First, we have simply taken the rates of yield calculated in our office in 1892 and submitted to Government in reply to Government of India Circular No. 3—45, dated 20th February 1892, in regard to the principal crops. These were taken mainly from assessment reports and, being used for assessment, are unquestionably under-estimates. For wheat we have in this calculation taken the figures published in the various yearly final forecasts.

As regards exports, figures are not available after June 1896, but as export from the harvest treated of could not commence before June 1895, we have equalized matters by adding in April, May and June 1895. The figures taken are from 1st April 1895 to 30th June 1896. So much for the calculation of outturn and export.

Next we have to consider the question of consumption. I do not propose to make any new calculation, but to take the estimate given in the Decennial Material Progress Report of the Punjab, page 14. This gives the consumption per head at 6 maunds per annum for the whole population, a much higher rate than the Famine Code ratio.

The result of taking the figures in this way is as follows :—

Total outturn of the three harvests, rabi 1895, kharíf 1895 and rabi 1896, is 205,383,402 maunds. Total export from 1st April 1895 to 30th June 1896 is 18,722,668 maunds, leaving for consumption 186,660,742 maunds. The consumption for the period 15th June 1895, on which date the produce of the rabi harvest may be assumed to have been first indented on to 15th June 1896, on the above calculation comes to 145,779,691 maunds, leaving, on 15th June 1896, 40,881,051 maunds, which at the above rate gives sufficient for 3½ months, or up to 1st October only, to which must be added the entire produce of the present kharíf, which may be assumed as at least sufficient for three months. Thus even calculating at the higher rate of consumption, which includes allowance for cattle, seed grain, &c., &c., this would show a surplus which would last up to 1st January.

We have, however, now got more data than we had in 1892 on which to calculate the outturn of various crops, and a revision of our estimated rates has been ordered to be made in 1897. We have for the last three years been making careful experiments on the outturn of various crops in all parts of the Province, and the result is to give a very materially higher rate than those hitherto assumed. Thus we find as the result of our three years' experiments taking simply the arithmetical average, an outturn which compares as follows, omitting odd seers, with the rates assumed in the calculations given above :—

RESULT OF EXPERIMENTS.

	Irrigated.	*Unirrigated.*	*Assumed in estimate.*
	Mds.	Mds.	Mds.
Wheat	15¼	11½	7½
Gram	17½	13¼	6¾
Barley	18	13¾	7¾
Maize	24½	14½	10½
Jowár	8¾	5	5½
Bájra	9¼	6½	4½

These experiments are free from much of the suspicion attaching to experiments made during Settlement operations. These experiments were made in 14 typical districts and tracts, and consequently I think we are quite safe in deducing the following rates, which

are still moderate, from them on which to calculate the outturn: Wheat 10 maunds, gram 11 maunds, barley 11 maunds, maize 14 maunds, jowár 6 maunds, and bájra 6 maunds. These rates are still, I think, moderate. The result of the calculations made at these rates is as follows :—

OUTTURN.

	Mds.
Rabi 1895	128,014,331
Kharíf 1895	49,763,464
Rabi 1896	90,834,806
Total ...	268,612,601
Deduct export from 1st April 1895 to 30th June 1896	18,722,660
Deduct consumption by population 15th June 1895 to 15th June 1896	125,382,610
Consumption for seed, cattle, &c.	20,578,505
Total consumption ...	164,683,775
Balance on 15th June 1896 ...	103,928,826

This balance gives sufficient for 8½ months' consumption at ordinary rates and 11¾ months at Famine Code rates. But the assumption that there was no balance in hand on 15th June 1895 is hardly justified, as will be seen :—

	Mds.
Outturn of rabi 1894	137,936,020
" kharíf 1894	54,596,736
Total ...	192,532,756
Total of one year's consumption of all kinds ...	145,961,115
Export between 1st April 1894 and 30th March 1895	29,132,720
Total consumption ...	175,093,835
Balance ...	17,438,921

which would be sufficient for the consumption at ordinary rates of 1½ months, that is to say at ordinary rates stocks should be sufficient for 10 months or at Famine Code rates for rather more than 13 months. This calculation allows for all kinds of consumption, and is I believe not very far from the truth. Ten months from 15th June 1896 would carry us on to 15th April, and we have the entire kharíf crop of 1896 to add to this, which would take us on to 15th July 1897 without taking account of the rabi 1897.

This corresponds very fairly with the views generally expressed by Deputy Commissioners. It must also be remembered that in this calculation only cereals and pulses have been taken into consideration. I may note that the food crop grown on irrigated lands alone in the next rabi would in my opinion not fall short of 45,000,000 maunds,

which is equal to 3 months' consumption, inclusive of seed, cattle, &c., and to about 4½ months at Famine Code rates. This is assuming that there is no baráni rabi at all, which is a very gratuitous assumption.

This according to my calculation, allowing for a minimum rabi, there should be enough food to last up to the kharíf of next year, 1897. This of course takes no account of possible export, which cannot be calculated.

No. 112.—*Notification.*—It is hereby notified that the following bye-laws for the regulation of bonded warehouses, made under Section 143, sub-section (1) *(g)*, of the Punjab Municipal Act, 1891, by the Municipal Committee of Ferozepore, have been confirmed by the Hon'ble the Lieutenant-Governor under Section 146 (1) of the Act, and are published for general information.

These bye-laws will come into force six weeks from the date of the publication of this notification.

BYE-LAWS.

1. The Ferozepore Municipality may appoint a place or places for the storage of goods brought within the Municipality and declared not to be intended for use or consumption therein.

A place appointed under this rule shall be called a bonded warehouse.

This does not preclude goods deposited in the bonded warehouse being disposed of or consumed locally on payment of octroi.

2. Any person bringing into the Municipality goods of the description above referred to or goods on which he is unable or unwilling to pay octroi at the octroi post may, without payment of octroi, deposit such goods in the bonded warehouse, subject, however, to the conditions and rules under which such goods may be refused and under which they may be conveyed from the octroi barrier to the bonded warehouse.

3. The officer in charge of the bonded warehouse may refuse to receive any goods which in his opinion cannot by reason of their bulk or perishable or dangerous nature conveniently be received on the premises. 7. *Bills* for octroi received at 1st Class Posts shall be prepared in English and Vernacular figures, a pass in vernacular being at the same time given to the owner for delivery at the City Gate when entering the City. *At the other posts in the vernacular only.*

8. No parcel, package or goods shall be allowed to cross the octroi limits without payment of the proper duty chargeable on its contents, or proof that such duty has already been paid, or that the contents are not chargeable with any duty.

9. When any parcel, package or goods the contents of which are not visible is brought to, or is about to pass, an octroi post, the Muharrir or other officer at the post shall call on the person in charge of the parcel, package or goods to exhibit the original invoice, bill or other document he possesses relating to it, and shall charge octroi duty accordingly.

10. When such invoice, bill or other document is not forthcoming the octroi officer may require the person in charge to declare the contents of the parcel, package or goods in the form annexed, and unless he has any reason to distrust the truth of the declaration, he shall levy duty accordingly.

Provided that if the person in charge be not the owner of the parcel, package or goods, or his responsible agent, the octroi officer shall require such declaration from the owner or such agent.

11. When the person in charge is unable to make the declaration, and the owner or his agent *is not present*, the octroi officer shall furnish the person in charge with a form of declaration and a memorandum *in* Form A signed by himself requesting the owner or his agent to fill up and return the form within three hours and to pay the proper duty, and in the meantime shall either detain the parcel, package or goods at the octroi post, or forward it to the Central Octroi Station. (If the owner or the consignee or his agent is a European, he shall be addressed in English.)

12. If the owner or his agent is unable to make the declaration without opening the parcel, package or goods, the octroi officer may, *with the consent of the owner or his agent*, open the parcel, package or goods for inspection in presence of the owner *or his agent*, or may allow the same to be removed on a deposit being made sufficient in his opinion to cover the octroi duty. Receipt for such deposit shall be furnished to the person making it *on* Form *B*.

13. If no declaration is received at the octroi post within three hours, nor any deposit made under Bye-Law 12, the octroi officer shall forward the parcel, package or goods to the Central Station, and shall ask the Octroi Tahsíldár to realize the duty.

14. The Octroi Tahsíldár shall thereupon write to the owner, consignee or his agent to make the declaration, or attend personally, or by agent, to have the contents of the parcel, package or goods inspected, or to make *a* deposit *sufficient in his opinion to cover the octroi duty* and inform him that if no reply is received within six hours he will be compelled to take the parcel, package or goods to a Magistrate or a Municipal Commissioner, and to have it opened.

Note.—Persistent omission to furnish information, or to attend for the inspection must be held to be tantamount to refusal or to allow inspection under *Bye-Laws* 12 *and* 14.

15. The President, the Chairman of the Finance Sub-Committee, or the Secretary may, on sufficient reasons to be recorded, allow a parcel to be removed without any deposit.

16. When, after making a deposit under *Bye-Laws* 12 or 14, the owner, consignee, or his responsible agent, makes the required declaration of the contents of the parcel, package or goods, the duty leviable thereon shall be adjusted out of the deposit, and the surplus, if any, returned to the person making the same. In case of a deficiency, the Octroi Tahsíldár shall send a notice to the owner, consignee, or his agent, demanding payment of the same. If payment is not made within three days, the Secretary may recover the amount by summary process under Section 201 of the Municipal Act, XX of 1891.

17. If the owner, consignee or his agent refuses to make the declaration or the deposit, or does not reply to the letter sent under *Bye-Laws* 12 *and* 14, the Tahsíldár or any other subordinate deputed by him in this behalf shall, as soon as possible, and within 24 hours of the original detention of the parcel, package or goods, take it before any Magistrate *or Municipal Commissioner.* The contents shall then be taken out, noted, weighed or counted, as the case may be, and a declaration to this effect shall be signed by the octroi officer opening the parcel, package or goods, and countersigned by the Magistrate or Member before whom it is opened. *Provided always that* (*under Section* 68 *of Act XX of* 1891), *by order of the President or a Vice-President, articles of a perishable nature which could not be kept for five days without serious risk of damage may be sold after the lapse of such shorter time as he may, having regard to the nature of the articles, think proper.*

18. The Octroi Tahsíldár shall thereupon send the owner, consignee or his agent a bill stating the amount of octroi tax leviable upon the contents of the parcel, package or goods, requesting him to pay the same within three days.

19. In case the contents of the parcel, package or goods are not chargeable, the owner, consignee or his agent shall be informed of the fact by the Tahsíldár, and shall be allowed to remove them.

20. If the tax demanded under the preceding rules is not paid as required, the Octroi Tahsíldár shall cause the parcel, package or goods to be seized and kept in safe custody, and submit a report of his proceedings and a statement, showing the amount of octroi due and the approximate value of the articles seized, to the Secretary.

21. The Secretary shall thereupon obtain the orders of the Committee, and cause the same or portion thereof to be sold by auction at the Municipal Office, or the Central Octroi Station, after issuing one week's notice of sale.

22. When a sale has taken place under *Bye-Laws 17 and 21*, the Secretary shall, after defraying the expenses of sale and deducting the amount of octroi duty properly chargeable on the parcel, package or goods, refund the surplus to the owner, consignee or his agent, and allow the latter to remove the remaining contents of the parcel, package or goods, provided that the Secretary may, at his discretion, permit such removal before the sale if he considers the portion detained sufficient to realize the tax and the expenses of the sale.

23. If the proceeds of the sale prove insufficient to pay the tax and the expenses of sale, another portion of the contents of the parcel, package or goods may be seized and sold in the same manner. Where the contents have already been removed, the Secretary shall summarily recover the deficiency under Section 201 of the Municipal Act, XX of 1891.

24. Whenever octroi tax is paid on a parcel, package or goods, or recovered by sale of its contents, a receipt for the amount shall be given to the owner, consignee or his agent by the officer in charge of the octroi post, or by the Octroi Tahsíldár, as the case may be.

25. All articles detained at the octroi posts or at the Central Station, pending receipt of the declaration of contents, shall remain at the risk of the owner, consignee or his agent.

These Rules will be taken into consideration six weeks from the date of publication of this notification, and any objections or suggestions communicated before then will receive consideration :—

DRAFT RULES.

Number of members to be elected or appointed.

1. The District Board shall consist of—

(*a*) twenty-four elected members, one elected for each of the 24 electoral circles, shown in the schedule hereto annexed by the electors of that circle as hereinafter provided ;

(*b*) twelve additional members, or one-third of the whole, as the Local Government may by notification from time to time appoint either by name or by official designation.

Appointment not obligatory.

2. The Government shall not be bound to fill up any of the places reserved for appointed members, but may fill up all or any of such places at any time.

Qualification of voters.

3. Every male person of not less than 21 years of age who pays per annum Rs. 2-1-4 or upwards as local rate, or is a lambardár or zaildár, or who is assessed at Rs. 2-1-4 or upwards under the Punjab District Boards Act, is qualified to vote for the elections in the electoral circle in which he resides.

Collective votes.

4. Local rate-payers who are sharers in a joint holding, the rate on which is Rs. 2-1-4 or upwards for the whole holding, but less than Rs. 2-1-4 per individual member, shall have one joint vote, to be exercised by any member of the holding whom they may select. Should they fail to make such selection they can record no vote.

Disqualification for office.

5. No one shall be eligible for the office of member of the District Board who—

(*a*) is under contract as regards work to be paid for out of District Funds; or

(*b*) receives any remuneration out of District Funds for services rendered to the District Board; or

(*c*) has been proscribed from Government employment; or

(*d*) has been convicted of any such offence or subjected by a criminal court to any such order as implies, in the opinion of the Local Government, a defect of character which unfits him to be such member.

Provided that the Local Government may exempt any person or class of persons, being paid servants of the Board, from the restriction contained in clause (*b*) of this rule.

Qualification of members.

6. Every voter qualified under Rule 3 and not disqualified under Rule 5 is eligible to be a District Board member for the electoral circle in which he is qualified as a voter.

Chairman of the District Board.

7. The Deputy Commissioner of the district shall be a member of the District Board and shall by virtue of his office be Chairman of the Board.

Term of office of elected members.

8. (*a*). Subject to the provisions of Act XX of 1883 elected members of the District Board shall hold office for three years. But of the members elected at the first election held under these rules one-third shall by lot or voluntary arrangement vacate office at the end of one year, and one-third at the end of two years.

(*b*). Elected members on vacating office shall be eligible for re-election.

Term of office of appointed members.

9. Appointed members other than those appointed *ex-officio* shall hold office for three years unless appointed for any shorter term.

Filling vacancies among elected members.

10. (*a*). Vacancies in places originally filled by election shall be filled up by election.

(*b*). When a vacancy occurs among the elected members of the District Board by the death, resignation or removal of a member within a year of the date when his period of office would expire, the Commissioner may apply to the Local Government for a direction under Section 15 (1) of Act XX of 1883 that the vacancy shall be left unfilled.

(*c*). When a vacancy occurs among the elected members of the District Board by the death, resignation, or removal of a member whose term of office has more than one year to run, an election shall be held in the electoral circle for which the place is vacant.

Candidates for election.

11. (*a*). Candidates for election shall be proposed by qualified electors, not less than ten in number, who shall intimate their proposals to the Deputy Commissioner by letter addressed to him and signed by them. Such letter shall certify that the candidate is duly qualified, and is prepared, if elected, to serve on the Board.

(*b*). If before an election is held an objection is taken to a candidate on the ground that he is ineligible under Rule 5 or 6, the decision of the Deputy Commissioner thereon allowing or disallowing the candidature shall be final:

Provided that if the objection is taken under clause (*b*) or clause (*d*) of Rule 5 the Deputy Commissioner may permit the candidature to proceed, and shall, through the usual channel, obtain under the said clause (*b*) the orders of the Local Government as to any exemption from the restriction thereby imposed or under the said clause (*d*) ascertain the opinion of the Local Government as to the effect of the alleged defect of character, and shall under Rule 18, clause (*e*), annul the election of any elected candidate disqualified by the decision of Government thus elicited. The order of the Deputy Commissioner annulling the election under this rule shall be final.

Notice to be published by the Deputy Commissioner.

12. Three weeks before the elections the Deputy Commissioner, or such other officer as he may appoint for this purpose, shall publish in each village a notice setting forth that an election is to be held and the various matters with reference to the election which it is necessary for the public to know.

List of voters.

13. (*a*). Lists shall be prepared by the Tahsíldárs on or before the 1st October in each year showing for each village the number and names of all persons who are qualified voters under these rules, and the amount of land revenue and local rate paid by them, or other qualification entitling them to vote.

Publication of lists.

(*b*). As soon as the list of voters is prepared, copies of the list for each village shall be published in that village and in the chief village of each circle, which gives its name to the circle, and is noted in the fifth column of the schedule attached.

Limitation of time for objections and their disposal.

14. (*a*). No objection to the entries in the list and no application to be entered in the list of voters shall be entertained unless it is preferred in writing within one month of the annual publication of the list. The Deputy Commissioner or such other officer as he may appoint in this behalf shall decide as to the validity of the objection or application, but if the Deputy Commissioner does not himself hold the enquiry an appeal shall lie to him from the decision of the officer appointed by him to hold the enquiry. The decision of the Deputy Commissioner shall in all cases be final.

(*b*). The corrected list of voters, including any modifications made in accordance with the terms of clause (*a*) of this rule, shall be published on the 1st November in each year or as soon after as may be practicable, and until the next revision no alterations shall be made therein except by the removal of the names of voters who have died or by the insertion or removal of the names of voters added or expunged in consequence of applications or objections made and admitted as provided in clause (*a*), but not disposed of prior to the publication of the list as corrected.

Voter's certificate.

(*c*). When the revised list is prepared, and the objections, if any, disposed of, a certified extract, under the signature of the Tahsíldár, shall be given on demand in the annexed form to each voter. These certified extracts or voter's certificates must be presented at the time of the election by the voters, and no person shall vote who does not present such certificate.

Time of elections.

15. Unless the Local Government otherwise directs, the elections shall be completed so as to allow of elected members taking office as early as possible in November.

Poll when necessary.

16. If more than one candidate is proposed for a vacancy a poll shall be taken, otherwise the candidate proposed shall be deemed to be elected.

Mode of election.

17. (*a*). When a poll is held votes shall be given in public by the registered voters in person and before such officer as the Deputy Commissioner may empower to receive them, at some convenient place within the electoral circle for which the election is held.

(*b*). No objection shall be allowed to the vote of any registered elector except on the ground of personation, and such an objection must be made by one of the candidates, his agent, or any registered elector, or by the presiding officer himself, at the time the vote is tendered.

(c). The presiding officer shall record in writing the nature of the objection, the reply of the voter, and the final order and reasons. The order shall be final as regards the acceptance or non-acceptance of the vote tendered.

(d). If the presiding officer cannot dispose of the objection before the time fixed for the closing of the poll, and if the acceptance or non-acceptance of the vote affects the result of the election, this result shall not be announced until the objection has been decided.

Result of election.

18. (a). As soon after the close of the poll as may be, the result of the voting shall be published under the authority of the Deputy Commissioner.

(b). The qualified candidate who has the largest number of votes in the electoral circle shall be elected member of the circle. If two or more candidates obtain an equal number of votes the decision shall be by lot. If the same member is elected for more than one circle, he shall choose which circle he shall represent, and the membership of the rest shall fall to the qualified candidates with the next largest number of votes, or, when there is no other qualified candidate, shall be deemed to be vacant.

(c). All objections to the return of any candidate must be given in writing to the Deputy Commissioner by one of the candida tes within one week from the announcement of the result of the election.

(d). The Deputy Commiss ioner may decline to make any enquiry regarding any such objection, unless the objector deposits a sufficient amount for the cost of the enquiry, and, on the petitioner failing to do so, may reject the petition.

(e). At the close of the enquiry the Deputy Commissioner shall pass orders confirming or annulling the election, and directing what portion of the costs, the amount of which shall be duly stated in the order, shall be borne by the objector.

(f). No appeal shall lie from any order passed under this rule.

Prohibition of fees.

19. No charge of any kind shall be made for any document prepared in connection with the elections, or for permission to vote.

COMMITTEES.

The 14th July 1896.

No. 354.—*Notification.*—Under the provisions of Section 189 of the Punjab Municipal Act, XX of 1891, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following Draft Rule which has been made under the provisions of Section 184 (1) (*d*) of the said Act for the Municipal Committee of Simla, and will be substituted for Rule III, published in *Punjab Government Gazette* Notification No. 309, dated 15th April 1891.

The Rule will be taken into consideration six weeks from the date of publication of this notification, and any objections or suggestions communicated before then will receive consideration.

DRAFT RULE.

Qualifications for voters, Classes A and B.

III.—There shall be two classes of voters, *viz.*, Class A and Class B.

Class A.—House proprietors, male or female, resident or non-resident, not less than 21 years of age, shall have for houses *outside the bazárs* one vote for every Rs. 800 of rent on which house-tax is *boná fide* paid, and *within bazár limits* one vote for every Rs. 25 paid in house-tax or frontage-tax.

Class B.—Tenants, male or female, not less than 21 years of age, *outside the bazárs* shall have one vote for every Rs. 400 of *boná fide* rental paid on which house-tax is assessed, and *within bazár limits* one vote for every Rs. 25 of house-tax or frontage-tax paid on the house they occupied by the proprietor thereof. Votes on these sales may be given for each house by either one or more *boná fide* tenants of such house whether used as a dwelling-house, shop, or office, or partly for one and partly for other of such purposes; but the total votes for any house shall not exceed the number allowed on the gross rental on which house-tax is paid by the proprietor.

Illustrations.—(1). A house outside the bazárs is taxed on a rental of Rs. 1,000, but having been let is occupied by three *boná fide* tenants, who pay altogether, say, Rs. 1,000 for the season. On this house only two votes can be given by tenants. If the taxed rental had been Rs. 1,200, there would have been three votes.

(2). Rental means the rent on which taxes are paid. For example, *B* rents a house for Rs. 800, and on Rs. 680 house-tax is assessed. *B* does not occupy the house, but transfers his lease to *C* for Rs. 1,000 *C* occupies the house. *C* has only one vote and *B* has none.

(3). *D*, a clerk in a Government Office, resides in Government quarters for the season and pays Rs. 400 for the same. *D* has one vote; but the Government has no vote as a tenant in respect of the quarters occupied by *D*.
